New Zoning Ordinance For Daly City

A draft of a proposed new zoning ordinance, which departs from the previous height limitation of 36 feet and provides for construction within a special R-4 (multiple residential) district of multiple units, high rise apartments, motels, hospitals and professional buildings, was accepted by the city council Monday night.

Copies of the proposed ordinance will be made available to the public. Changes from the present ordinance, which was adopted in 1949, were made after review by the planning commission, city engineer, city planner and city attorney.

Off-street parking requirements are more particularly defined and the ordinance also provides for what is described as a Planned Development District, which is a new concept in zoning and which has worked with some success in Palo Alto.

City planners were envisioning a R-4 zone with floor area ratio of lot area and building area of four to one.

This would allow a building to be constructed in which there is four square feet of building area to every four square feet of lot area.

High rise apartments, although not currently in use in Daly City, are not generally encouraged throughout the West Coast by local economics, according to city planner

Local Teenage C. of C. Starts Job Agency

The Daly City Teenage Chamber of Commerce is starting an employment agency May 1. This agency will employ boys and girls between the ages of 14 and 18.

Jobs will be for after school and weekends until June 15. During the summer, these young members of our community will be put to work on both part-time and full-time basis, doing almost any type of job. Some of these jobs will be washing cars, mowing lawns, painting, gardening, baby sitting, cleaning basements, etc.

Persons who are in this age group may fill out an application, listing name, address, telephone, area and job selection, addressed to T. E. A., in care of Saxe Realty Company, 2384 Junipero Serra boulevard, Daly City.

Knowles-Los Banos Properties Appraised

Several property owners in the Knowles-Los Banos one-way street project right-of-way have accepted appraisals for their property, while a few others have not accepted, city attorney Paul Hupf said Monday night at the city council meeting.

Not yet agreed to appraisals are Louis Mazzera, Pasquale Matire, T. C. and Doris Henderson, William and Mary Roberts, Effie A. Hayes, Henry and Lisa Petersen and Elmar Sandberg.

Largest property owners in the Mission street tract to accept appraisals are B'nai Israel Temple and Duffy's Tavern. Construction of the $500,000 project is expected to begin within six months.

The streets will serve as a major link between Mission street and Alemany boulevard and the new Junipero Serra freeway. Knowles is to become one-way eastbound and Los Banos one-way westbound.

Largest expense of the project is the purchase of real estate for some 16 lots where Knowles will merge at Mission street and Junipero Serra. Another 12 homes will be carved out between Santa Barbara and Mission. Four homes will be demolished between Niantic and Junipero Serra.

Niantic street, which presently jogs, will be straightened out and will run across both Knowles and Los Banos. Santa Barbara will be abandoned between Knowles and Los Banos.

THE BATTLE ZONE — This land, stretching from beyond the Southern Hills Development to Daly City, is the area Daly City wants to annex—some 875 acres which stretch to the Bayshore boulevard. Legal disputes have arisen over industrial lands in this area, which Daly City and Brisbane would each like to annex. Brisbane has laid claim to some 15 square miles of industrial lands, predominantly west of Bayshore Freeway, while Daly City has started proceedings for annexation of Bayshore City. The Bayshore Sanitary District is disputing Brisbane's claim to its annexation.

VANDALISM — Jefferson High School principal John Mongon points to doors torn down this past weekend by vadalism in the new Jefferson High buildings under construction by J. E. Roberts Co. The new damage, added onto past destruction, now totals into thousands of dollars.

Vandals Mar Jeff High School Plant

John Mongan, principal at Jefferson High School, was an angry man this Monday. He was angry because vandals had once again damaged the new high school building under construction.

It has added up to several thousand dollars worth of loss, in time and equipment. Glass windows, smashed out by vandals are hard to replace, especially the long, narrow type which are imported from the eastern United States.

Buckets of paint had been spilled on classroom floors, cabinets knocked over and punctured in hallways.

From 8 a.m. until 9:30 a.m., workmen at the site spent time, ordinarily used on construction, in cleaning up the mess made by the vandals. Steel scaffolding had been torn down and thrown down stairways, vents destroyed and wiring pulled out.

Mongon, and Jack Cody, building manager, said the destruction was not necessarily the work of "kids."

They would have to be pretty big, for instance, to tear off two doors, to pull over huge cabinets and destroy all that sheet metal.

Kids don't always draw pictures of nude women on the newly plastered walls.

"I'm fed up with this," Mongon said. "You sacrifice to get a new million dollar plant like this, and then look what happens."

Mongon said the vandals had already set fire to the business office.

Most of the damage occurs after the regular school day, when the janitors have gone home. He said, possibly the construction company would have to hire a watchman. And this would add up to increased construction costs.

Brothers Burned In Garage Fire

Two brothers received second and third degree burns Saturday at 1080 Brunswick street in Daly City when gasoline exploded in a garage.

The men, Willie Davila, 26, and Carlos Davila of 635-A Castro street, San Francisco, were using gasoline to clean a garage floor when fumes were ignited by a spark from a water heater.

To complicate matters, the men accidentally spilled an additional four gallons of gas-

Death Rides a Motor Scooter

Last Wednesday afternoon a sophomore at El Camino high school, 15 year old Thomas Clayton Knapp was killed when the motor scooter he was riding was struck from the rear by a car driven by David Van Kridt, a teacher at South San Francisco high school. Knapp had borrowed the scooter to go to the store.

The former class officer at El Camino was hit when he stopped to make a left turn at the corner of Hilton and Hickey Blvd. in South City. No carges or citations were issued immediately as investigation of the accident is still being conducted.

A scholarship fund has been initiated in his memory. Donations may be sent to Tommy Knapp Scholarship Fund, El Camino High School.

Mrs. Kerska said any families missed in the neighborhood solicitations may send contributions directly to the San Mateo County Heart Association, 45 North B street, San Mateo.

Annexation, That Is

An 'Ultimate' Battle For More Territory

Editor's Note: In trying to bring out the urgency or describe situations, newspaper reporters often borrow terms and phrases that properly belong in other fields. The present actions of Daly City and Brisbane to annex the unincorporated lands of Bayshore have been described as a "battle." Herewith our war correspondent, A. C. Woodley, carries it to its logical extreme.

The scene is Daly City-Brisbane-Bayshore.

The time: Summer, 1963.

Due to the recent annexation battle, small skirmishes have broken out in the Crocker Hills between the opposing camps.

Daly City engineers have managed to bore a hole through the San Bruno mountain for better access to Bayshore City — that beleaguered community where the Cow Palace once stood, but has long since disappeared under rocket fire from Brisbane.

World War I veterans of Daly City have mounted a single howitzer on the TV tower hills and have managed to harrass the advancing Brisbane troops.

Daly City engineers have hatched a scheme to fill in the area in the Bay adjoining the industrial part of Bayshore. They plan to blow off the top of San Bruno mountain with a nuclear device and truck the dirt into the bay.

The battle lines have long since been drawn.

Since Daly City wants Bayshore and Brisbane wants Bayshore, the residents of Bayshore have set up rows of barbed wire to keep out the advancing armies from both camps.

On the southern end of Daly City, troops have been fighting a flanking action against the South San Francisco army which has infiltrated through the community of Westborough and overrun St. Francis Terrace.

South San Francisco has tried to capture the Christen Dairy ranch, but has been held back by Daly City's stiff defense. The Westlake mortar squad has launched mortars from the backs of cows into downtown South San Francisco and generally confused the South City plan of attack.

Pitched battles have broken out among the Colma tombstones for acquisition of the TV tower hills. Daly City engineers have flooded South San Francisco on two occasions by opening up reservoirs and allowing the water to drain down San Bruno mountain.

In retaliation, South San Francisco has flooded Westlake Terrace by opening up Lake Merced across Lake Merced boulevard.

The Terry-Broderick dueling spot is now flooded and a dampness hangs over the land.

General Derfucci and field marshal Petrachi requested readers at this time to check the Westlake Times for casualty lists. The list is not complete until the next of kin can be notified.

Used car dealers have been in conference the past week discussing logistics for an all-out attack that will begin with a cavalry charge on South San Francisco. Only '63 models will be used in this so-called "Panzer division."

Daly City has already captured Candlestick Park. Missile sites will be erected and troops and equipment will be massed. City engineers are digging a moat and will let the Bay in around Candlestick Park.

Enemy POWS are being held at Jefferson High School gymnasium, where they play volleyball with the varsity. Head hoop mentor Mike Orlich stated "I don't know how we're going to get any basketball games played this year."

He asked the citizens of Daly City not to walk across the lawn to look at the prisoners.

Times War Correspondent.

(2) If the emergency appears to be heart failure, call the Daly City fire department at PL 5-4212.

"Closed" Campus For Jefferson High

Jefferson High School will probably become a closed campus this fall, along with Terra Nova, Oceana and Westmoor, the district board of trustees were told Monday night.

Supt. Edward Morgan said students no longer will have the option of leaving school at lunch time. School grounds will be fenced in by this fall when reconstruction and expansion of Jefferson reach an advanced stage.

Westmoor, Terra Nova and Oceana now operate on this basis as "closed" campus schools.

Morgan said the Jefferson High School parking lot presently holds 55 cars and that spaces will be available for 96 after the reconstruction program. The spaces will take care of all the school's employees.

Students have not been permitted to park on campus for several years. The small site on which the school is located does not permit extensive parking.

Al Ickler

Wounded? No—scared to death!

That is the way Al Ickler, Westlake - Broadmoor Teen Club president, described his advehtures in the tank corps during World War II.

Al, who operates his own telephone answering service in Colma, served with the Marines during that time of conflict when the gyrene troops infiltrated the Southern Pacific area.

He served in Iwo Jima and Siapan at the time when the tank flame thrower was in the experimental stage. Later, when this lethal weapon became more effective, it served as a major cause of the Japanese defeat on these islands.

Two years ago, Al's son, Rich, and a few other youths in the neighborhood got together and started a youth club. Al got interested. "The kids said they would like a club. They wanted something to do. So I got it organized."

The club has taken up much of Al's time, but it has been interesting. The members meet twice a month, they learn parliamentary procedure, play records, dance, play ping pong and hold business meetings. Every meeting there is some program, including entertainment.

It's a long way from being a tank driver in the Marines, but as Al put it, "I'm a jack of all trades."

Prior to his starting the answering service in Colma, Ickler was a chef at the Steak Pit Restaurant. He is also an accredited chiropractor, a profession which he studied while working as a short order cook at the Steak Pit.

Ickler is of wiry build, tall, with hair parted in the middle and with intense, yet smiling brown eyes.

A Bay Area resident since 1947. Al came back to California after the war after being stationed here at San Diego in the Marine Corps. "I liked it and came back here to live."

He resides at 835 Larchmont with his wife Kay, and daughters, Patricia, Evelyn and Sharon. Son, Richard, is now a member of the Armed Services.

Merlin Porter was elected president. Educational vice president is David Sumbardo. Other officers include Jim Penoyer, administrative vice president; Bill Tucker, secretary; Marshall Bloss, treasurer, and Ron Bates, sergeant-at-arms.

Outgoing president was Ed Tomasello. Speech contest winner was Bill Chapman, who talked on the "Sinking of the Titanic."

Special guest was Jim Shay, area governor, who defined Toastmasters as persons who "are in a hurry," and "gathered together to achieve certain goals." Some people, he said, join Toastmasters to learn to listen, to gain self confidence and to expand executive abilities. Other endeavors include the ability to think on one's feet, and to speak better.

The Daly City Toastmasters Club meets each Thursday at 7 a.m. at the Westlake Library

Scores of prominent San Mateo County citizens are lending their support to the Easter Seal Campaign for support of the Rehabilitation and Research Center operated by the Society for Crippled Children and Adults in Burlingame.

As sponsors of the appeal in communities throughout the county, the civic committees will aid Bob St. Clair, Daly City councilman and 49er football star, and Jim Davenport, Giant sensation, in raising funds through purchase of Easter Seals.

Leading the drive in the Daly City area are: Jack Hurt, Alfred O. Belotz, Art Colvin, U. R. Kendree, Edward D. Morgan and Lee W. Brillhart.

132,000 sets of Easter Seals are in the mail this week and $50,000 must be raised to operate the newly enlarged Rehabilitation and Research Center which offers its facilities to the 14,873 handicapped citizens of San Mateo County.

The Center is open to all regardless of race, creed, color or ability to pay.

"All that is necessary to bring about sizeable contributions from any citizens is to have him visit the Center and see all of these San Mateo County crippled and handicapped kiddies getting the therapy that is so necessary to help them become useful, active citizens," declared Davenport and St. Clair today, "and we hope every family will contribute."

Volunteers Sought For Leukemia Drive

Mayor Joseph Verducci is visited by Jeanne Pavlovic, San Francisco State College student who registered at the Student Placement Office for part-time-work, and wants to help with the first neighhborhood appeal for funds the Peninsula Chapter of the Leukemia Society has ever made in the Westlake-Daly City, Pacifica, South San Francisco area. Students like Miss Pavlovic and non-students are now telephoning from quarters donated by Henry Doelger Builder, Inc.

They are seeking volunteer marchers for the week of March 24. Residents who would volunteer as marchers should call WY 2-4474.

"Appeal volunteers," Mayor Verducci points out, "will be directly helping to 'Strike Back' at the disease which strikes young children, adults and older folks. Leukemia Society researchers are confident that there is a cure in sight and that many lives will be saved."

The appeal March 24 is to aid research in finding a cure for leukemia, a disease which takes the lives of over 14,000 Americans each year. Only through maximum funds for maximum research can the cause and eventual cure be found. The Leukemia Society is the only voluntary health agency solely devoted to the cure of leukemia. The Peninsula Chapter of the Leukemia Society maintains a patient aid program. Information is available by calling WY 2-4474.

Each volunteer is identified by the blue and white kit carried when they call at the door for contributions. Every volunteer marcher can extend that much more opportunity for Daly City residents to strike back at leukemia.

The bonds are being reoffered to investors at yields ranging from 1.65 per cent on 1964 maturities to 2.85 per cent on 1979 maturities.

A Planned Development District, under the present ordinance would require three separate zones. In the present development, all three would be allowed under one zone. The Planned Development Districts would be either residential, industrial or commercial-residential districts.

The ordinance, defined as a modern, up-to-date ordinance, contains new concepts over the previous ordinance, according to city attorney Paul Hupf.

LOTS OF SWITCHES — Frank Rehe, a nine-year employe of the Daly City water department, points to reservoir controls of Daly City's automatic water system switchboard, which goes into operation in six months. An instrument panel will give engineers and operators up to date information on the operational status of every pump and reservoir and every settling tank in the city. City's new system, a set-up of blinking lights, gongs and bells, was designed by the Daly City engineering staff, headed by William Chapman, city engineer.

Info Kits On Highway Plan

Information kits on the City-County Highway Plan are being mailed to top business executives and labor leaders throughout San Mateo County as the first stage of an intensive public education program, Supervisor James V. Fitzgerald has announced.

Fitzgerald, chairman of the San Mateo County Greater Highways Committee, said these key people are being asked to study the program and to support it.

"No one in San Mateo County who drives a car today can have any doubt that our street and highway systems are going to have to be improved to keep pace with the continuing influx of population," Fitzgerald said.

"We are convinced that the City-County Highway Plan offers the best solution to our present and anticipated traffic problems and that the program designed to finance it is sound."

The first stage of the plan will cost an estimated $40,000,000 and will be financed from $5,000,000 in County gas tax funds and a $35,000,000 bond issue to be presented at a special election June 4th.

"We are appealing to leaders from all segments of the community to help promote this bond issue which is vital to the program and to the future of the county," Fitzgerald declared.

"We are convinced that the program will stand on its own merits and that it will be overwhelmingly supported by an informed public. We are asking that responsible community leaders who have a stake in the future of the area take an active part in seeing that the public is fully informed on all phases of the highway program."

Fitzgerald added that distribution of the information kits will be followed up by letters requesting active support from the people receiving them.

Girl Scouts of the Daly City-Colma area will conduct their annual cookie sale, starting Friday, March 16, and continuing through April 1.

The cookies will be sandwich, mint and Danish cookies.

This year, they will have a $1 box of assorted confections which will be handy for serving at parties. The uniformed Girl Scouts, intermediate and seniors, will go door-to-door. The Brownie Scouts will sell only to relatives and their immediate neighbors.

There will be booths set up in stores, banks, markets, all supervised by adult Girl Scout leaders.

The profits earned will go toward payment and maintenance of Girl Scout permanent camps in the mountains at Sonora, Two Sentinels and at Camp Butano.

Long-Time Daly City Telephone Operator Retires After 27 Yrs.

A 27-year telephone career has concluded here with the retirement of Mrs. Alma Richardson.

Mrs. Richardson, a long-time Daly City telephone operator, joined Pacific Telephone in 1924 and had been a telephone operator for the entire time, except while being absent from the company for 12 years to raise two daughters.

Friends and fellow employes feted her with a retirement dinner recently, highlighted by a visit to the Tennessee Ernie Ford show in San Francisco.

Mrs. Richardson resides at 1101 Southgate avenue in Westlake.

Automation Course At USF Labor School

Government, industry, and organized labor will supply speakers for a nine-week course on Automation and Technological Change opening Tuesday, March 12, at the University of San Francisco Labor Management School.

The course will explore automation's impact on 180 million Americans—men, women, and children, their jobs, homes, and schooling — said Rev. Andrew C. Boss, S. J., director of the school.

Subjects include:

Union adjustments and attitudes.

Political, economic, social, and psychological effects of automation.

Professor Ted Malm of the University of California Graduate School of Business administration will open the series Tuesday with a discussion of the problem in its broad terms.

The course will meet Tuesday evenings at 7:30 through May 7. Registration is still open with the USF Labor Management School, SYyline 2-1000 (250).

Cranston said the total was divided as follows: $22,710,032 to the State Highway Fund for expenditure on highways, $7,887,160 to the counties and $3,063,104 to the State Highway Fund for cities.

The total distributions were greater by $1,840,506, or 5.8 per cent, than those for February of last year.

The apportionment was comprised of $29,348,198 from the gasoline tax, $2,952,533 from the diesel fuel tax, $1,114,062 by transfer from the Motor Vehicle Transportation Tax Fund and $245,503 from miscellaneous sources.

WHAT EVERY WOMAN SHOULD KNOW ABOUT HER AUTOMOBILE

By WENDY WHEELER
Auto-Torium Feminine Driving Consultant

Just had lunch with one of those "flat land" furriners, a girl friend of mine from the plains of Nebraska, who was bemoaning her fate on "those crazy, ridiculous" San Francisco hills. And despite my loyalty oath sworn before the San Francisco Convention and Tourist Bureau, I must admit that these hills, while inspiring tourists and poets, are the most awesome, forbidding booby traps ever devised by Nature for the unsuspecting driver.

Take me, for instance . . . I have an absolute horror of hills, especially since I suffer from Vertigo. Just like Kim Novak from the Vertigo of the same name . . . only on her it looks good! When Wendy wends her way down the California Street hill, it's every pedestrian for himself since I have a tremendous urge to close my eyes . . . unfortunately, the police look down on this practice. They have a silly rule that says one must drive with one's hands on the wheels and one's eyes on the road. They have some other rules, too, which are meant to help hill drivers like me, and I've found some of them handy things to know.

For example, stopping on a hill is a more frightening experience for me than watching a Boris Karloff movie. I keep praying for green lights, but it dosen't always work. When it dosn't, I've found that my anxiety is eased if I put on my parking brake. That way I won't roll back into the car behind me. It's very simple, really! Of course, those lucky ones who drive cars with automatic transmissions need not worry about such things. A curse on all the chauffered executives, while I'm feeling sorry for myself and my little shift car.

Another helpful hint when you're coping with driving in San Francisco: take it real easy when you're approaching the crest of a hill because you never know what you're going to find at the top waiting for you . . . like a sidewalk meeting of the Hilltop Avant-Garde and Trafic Stoppers Society or three semi trucks trying to get into a parking space meant for a Volkswagan, or worst yet, no more road! I've found the best rule to go by is to expect the unexpected at all times . . . and believe me, it often happens! Speaking of hills, a very nice policeman not so nicely reminded me that it is illegal to pass another car within 200 feet of the crest of a grade. I didn't do it . . . honestly!

Everyone knows that wheels are always supposed to be curbed when you park on a hill, but I just discovered that that means they are to be curbed on any grade of 3 per cent or more. Don't ask me how much that is, just play it safe and curb them anywhere. In the garage, even. And curbing wheels also means that the wheels must touch the curb, not just flirt with it. All these precautions are meant to prevent run-aways and $25.00 fines and lovely law suits, which I am very glad to prevent anyday. To make doubly sure that I am parked safely on a hill, I also put the gearshift in the opposite position to which I am facing. Going uphill, I put it in first; downhill, reverse. When going sideways, I just give up and admire the hills for their beauty — they are truly breathtaking, especially when one is riding or walking instead of driving. I have just decided to form a club . . . The Anti-Hill Driving and Pro-Hill Watching Association. Membership fee is one dented fender.

(FREE copies of Wendy Wheeler's entertaining and informative booklet, "What Every Woman Should Know . . . About Her Car," may be obtained at any Auto-Torium Store, or by writing to her in care of this newspaper).

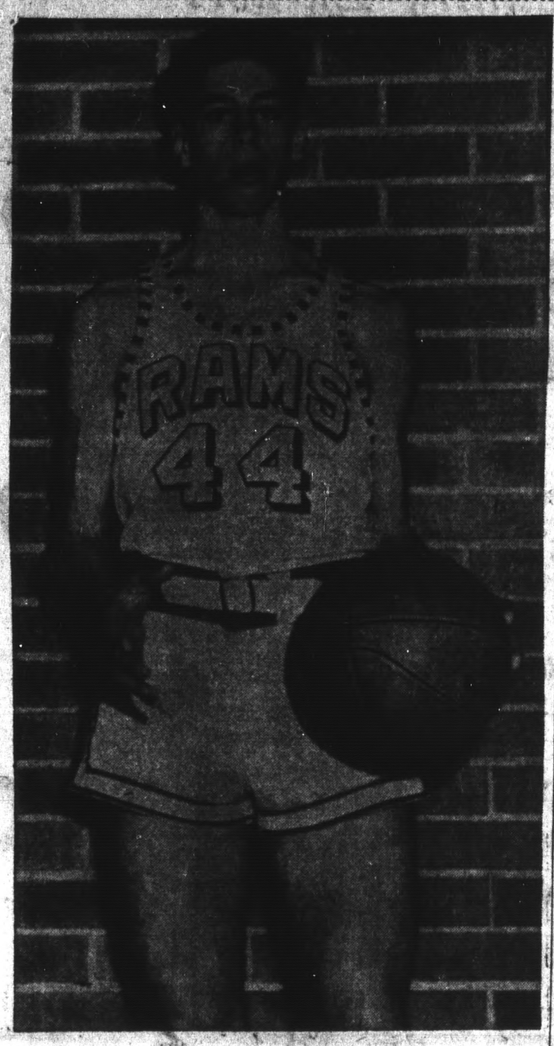
SPORTS



JOHN KELLY, who led the Westmoor Rams to their championship berth in the NPL, was selected as the "Most Valuable Player" by the North Peninsula coaches last week. At center, this 6-2 senior scored 172 points in league competition while pulling down more than 150 rebounds.

SEA BOWL NEWS

Once in a while a league is formed whose membership is almost entirely composed of new bowlers and who find it hard to finish on time. Several things have to be considered in helping a league to speed up their finishing time. One of those things is the direct responsibility of the team captain. It is simply starting on time. Another, most obviously, is to be ready to bowl when your time to bowl has arrived. Posing with the ball is another problem that is almost always a beginner's problem. Being sure that you are not interfering with the right of way of another bowler is something we all can be more careful in considering.

Most often we expect the men to outscore the women in a mixed league—but not always: last week's Boat Club serves as a fine example; Dot Griffin 406, Al Griffin 405, Gerry Holden 410, Roger Holden 379, Linda Pfleiderer 367, Lee Pfleiderer 361, Bill Messer 350, Marie Messer 392, Dessie Hart 552, Mercer Hart 421, Rita Craig 399, Bob Craig 304, Nancy Jensen 388, Bob Jensen 367, Jack Hughess 328, Colleen Hughes 438 and Jean Sidwell 468, Ken Sidewell 454. The entries into the team tournament indicate that this, the initial year, will be a huge success.

Round-up of last week's scoring:

All NPL Quintet Chosen

Jeff Mentor Lauded for 130 Victories

Coach Mike Orlich, Jefferson High School, was named an award winner recently by the Sports Trail Century Club, an organization maintained by the Bike Division of the Kendall Company, to recognize the contributions of dedicated coaches throughout the nation.

Coach Orlich was made a member of the Sports Trail Century Club for his record of 130 victories in basketball.

The club is an honorary group open to all college and high school coaches whose teams have won 100 or more contests in any sport. Originated several years ago by high school coach William Matthei of Milwaukee, Wisconsin, the Sports Trail Century Club is based on the concept that good coaches help make good citizens.

"Successful coaching of athletic teams develops in young men a fine competitive spirit, an early appreciation of fair play, and a sense of responsibility," said Paul M. German, director of the club and an executive of Bike. "The characteristics that make a winning team are the characteristics that build better citizenship."

Mr. German said that while constant recognition and praise are given to a few coaches, the great majority sometimes get little thanks for their laborious job. He said that for these reasons Bike Web was happy to make the award to Coach Orlich for his outstanding achievement in school sports.

By DON DOE

The Westmoor Rams dominated the All-North Peninsula League teams in much the same fashion as they dominated the NPL in this year's campaign—just barely.

The Rams' John Kelly, one of two unanimous selections, as well as being "the most valuable player," was selected as the all-league center by the NPL coaches. This 6-2 pivot scored a total of 353 points in 21 games, 172 of this output coming in the 10 league games, for a 17.2-point-per-game average. Kelly consistently won praise from Ram mentor Giammona for being the key to the Ram defense. He pulled down between 13 and 15 rebounds a game.

Two more of the Westmoor starting five were given all-league recognition, being voted to the second team. Steve Schmuck, the 5-10 guard, was the Ram court general, as well as a strong outside threat, scoring 120 points in league play for a 12-point game average in NPL competition. The third Westmoorite voted to the all-NPL squad is Steve Morrison, also a member of the second team. Morrison, short at 5-11 for his forward post, demonstrated a fine soft touch, scoring 65 points in league play.

The South San Francisco Warriors placed both of their forwards on the NPL first team. Rich Mozzini, a 5-11 senior, managed 39 per cent of his shots from the floor and 62 per cent of his free throw attempts for a league total of 154 points.

Dave Parenti, two inches shorter at 5-9, finished his senior season with a point total of 169 in league action. Parenti, who scored 40 points against Oceana to shatter Warrior scoring records, compiled a record of 66 per cent of free throws made and 48 per cent of all league field goal attempts. These two forwards compiled the most accurate one-two punch in the league.

El Camino's Hal Westmoreland, although every team he faced keyed their defense efforts to him, managed to chalk up 152 points from the floor. Not drawing fouls frequently, Westmoreland had only 18 points from the charity line, thus giving him a 16-point game average for NPL play. Westmoreland was also a unanimous choice.

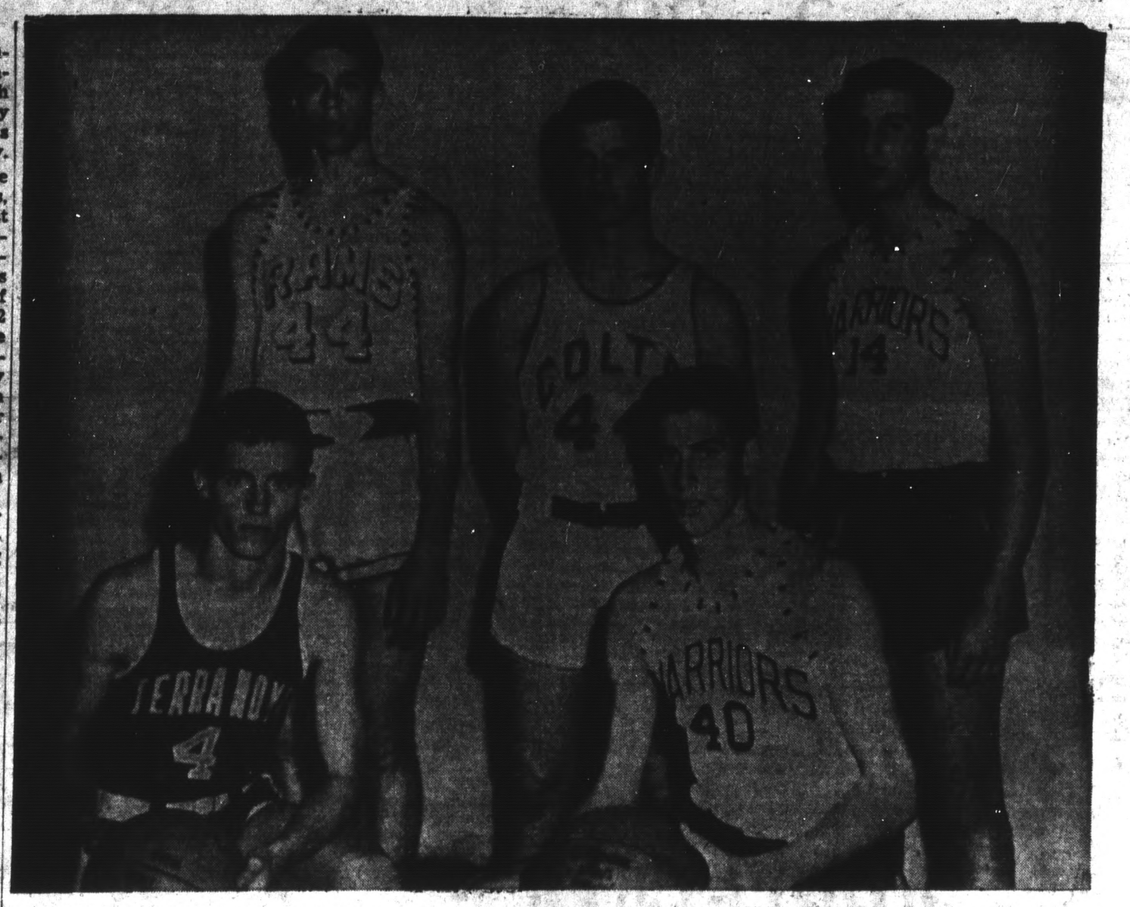
Rounding out the first five of the NPL dream quintet, is John Lieuallen, a 5-9 senior from Terra Nova, who hit a total of 234 points this season, 126 being scored in league play.

Jefferson, like Westmoor, placed two of their starting five on the second team. Larry Jones, the Indians' 6-0 center, missed the nomination for the first team by only one vote and missed "Most Valuable Player," also by a single vote. Jones not only garnered 131 rebounds, but also made 35 shots from the floor and 21 from the foul line for a total of 91 points.

En route, he compiled a .447 shooting percentage. Steve Willis, who was the best rebounding forward in the NPL this year, also took second squad honors for the Jeffs. In addition to pulling down 79 rebounds, the 6-1 junior poured in 109 points in the ten loop battles, 88 coming from the floor.

Guard Dave Breazeale of Oceana, in making the alternate team, broke Daly City's strangle hold on the roster.

Honorable mention went to the following players: Rodney Aguilar of El Camino, Dan Boden of Jefferson, Lary Kinkade of Oceana, Szehener of South San Francisco, Dennis Carauthers and Rich Scheaefer, both of Tera Nova, and Bill Broughton of Westmoor.



THE ALL NORTH Peninsula League selections are (left to right): First row — Dave Parenti, SSF; John Lieuallen, TN. Back row—Rich Mozzini, SSF; Hal Westmoreland, EC, and John Kelly, W. This team averages only 5-11 in height, but could, statistically, be expected to score 77 points per game.

Warrior Mermen Drown Indians

The South San Francisco mermen had too much depth for the Jeff swimmers last Thursday, sinking them 49½ to 44½, in a close meet held at the Warrior's pool.

The South City tankmen were led to victory by three double winners. Shelton took the 50 yard freestyle in 25.1 seconds, then won the 100 yard butterfly in the time of 1:07.9. Soales captured both the 100 yard backstroke and the 200 yard individual medley, winning in times of 1:11.1 and 2:35.8 minutes, respectively. The Warriors' Dunlop also took two events, being judged first in the diving competition and capturing the 100 yard breaststroke in 1:14 flat.

Swimming for Jefferson, Ahuna and Goodin turned in excellent performances with each winning an event and placing in another. Ahuna finished second in the 50 yard freestyle sprint, then won the 100 yard splash in 1:02.2 minutes. Goodin placed third in this event, then added a first to the Jeff totals by taking the 200 yard freestyle race with a clocking of 2:28.8.

The only other first place captured by the Indian mermen was the 200 yard medley relay, the four man effort yielding a creditable 2:04.4 clocking.

Wartenburg of South City took the 400 yard race, churning out a 5:36.8 time for the grueling test.

The 200 yard freestyle relay ended in a tie, thus splitting the seven points between the two teams.

Next Thursday finds the Jefferson squad hosting the Terra Nova contingent, while the Warriors travel to Oceana.

Experimental Cars Show Trends

Back in Detroit and other centers of automotive production a good number of men spend a good deal of time worrying about what they will put into next year's model.

They put their ears to the ground and fix their eyes on a star. They talk with farmers, listen to gossips, and probably consult with a seer or two. They thumb through encyclopedias of design and the latest comic books. They doodle with their pencils at many a drawing board. And then when they have some ideas that will work they put them to the test by building them right into their experimental cars.

These "laboratories on wheels" usually cost a small fortune, reports the National Automobile Club, but they are worth every penny of it. They usually look like something from another planet, but the devices they embody often end up on the car next door.

Just some of these devices that have already arrived are the electrically controlled convertible top, fender extensions over the doors, and pushbutton door latches. In the experimental stage are such items as remote control automatic jacks.

Now keep your eye on that car next door!

Clean Cooling System

Flushing the radiator at regular intervals is a valuable and frequently overlooked item of car care that the owner should undertake. Any car will be the better for a cooling system washed clear of impurities.

The San Francisco Civic Auditorium has a seating capacity of 9,136.

SSF Racquetmen Chalk Up Two

The South San Francisco Warrior Tennis Team swept to their 5th and 6th straight victories of the season by defeating Sacred Heart last Tuesday 7-0 and Galileo on Thursday 6-1.

The victory over Sacred Heart was led by top singles man Vic Escallier and Captain Jim Eskelsen who won by scores of 6-0, 6-0. Other victories were of Carl Durham and John Ellsworth and John DeGreaf and Rich Mozzini also registered triumphs by one-sided scores.

The Warriors easily defeated Galileo but No. 1 singles player Vic Escallier, lost his first match of the season to Fred Danda 6-1, 6-2. In the other matches, however, the Warriors won handily. Victories were registered by Edison Louie, Terry Megna, and Rich Mozzini. Jim Eskelsen won his match on a forfeit. The doubles team of Durham and Ellsworth and DeGraaf and Dong won their matches with little opposition.

The Warriors will meet the toughest opponents faced this season when they play perenially strong Lincoln High of San Francisco, Friday, March 15 on the South San Francisco tennis courts. The following Monday, March 18, they will meet a tough Washington High School. The South San Francisco tennis team will have to play its best game to keep their win streak alive.

Studebaker Credits Newspaper Ads for Automobile Sales

Crediting newspaper advertising with much of the success in Studebaker's upsurge in automobile sales since the beginning of the calendar year, L. E. Minkel, vice president of marketing, announced in South Bend, Ind., that his company is reinstituting the cooperative advertising program that won praise from its dealer organization when it originally was tested in January.

Minkel said the recently concluded program was one of the most successful factory-dealer advertising promotions conducted by Studebaker in several years, and "showed beyond a doubt the tremendous ability of newspapers to reach directly into the home of the prospective automobile owner."

'Bottle Party' For Cub Pack 84

Cub Pack 84 will again honor unwanted bottles at their annual Bottle Party, to be held Saturday, March 16. Cubmaster Joseph Monks issues a cordial invitation to all bottles to participate, and promises a gala day.

Boys in uniform will call at each house in the Broadmoor-Garden Village area and escort the "guests" to the festivities.

Not only will these bottles have a good time and be returned to a useful life again, but the pack treasury will gain a needed boost as well.

It is hoped a large attendance will make the party its usual success.

Inexperience Biggest Hurdle

Ram Cindermen Show Power

In forecasting the aspirations of the Ram Cindermen for 1963 the prognosticator cannot, in the same breath, omit Forecast '64 and '65. This season's team is a young one, but the Rams aren't "waiting 'till next year" to impress, as Westmoor is ready to retain its position as a top Northern California team.

Only one senior on the entire varsity is holding down a front line position...several freshmen and a large group of talented sophomores and juniors are leading the way.

An opening season effort against Aragon established the Rams as the team to beat for the NPL Championship. Although they lost the meet, 62-51, the inexperienced Rams chalked up the best marks and might have won with the help of several outstanding individuals playing on the Westmoor championship casaba squad. Aragon has the finest team in its history and may very well go undefeated.

One hundred and twenty boys, the largest turn-out in Westmoor history, tried out for the team this year. Most of these boys are still undergoing extensive development.

Varsity

Sprints: Roy Pinelli, ran an unofficial 9.8 as a frosh, but hasn't run consistently since due to several pulled muscles. Roy has learned the art of relaxation and literally eases through races, running 10.0 and 21.8 (fastest times in the state) in first outing. Ed Yeadon, jr., 10.7 first year out; Dennis Tracy, jr., 23.2; Marc Wallinger, jr., 23.2. 440-880: Marc Mallinger, husky 180-pound jr. who ran 51s last year in Texas is out for awhile with pulled hamstring. Scot McGowan, soph., is his understudy, ran under 54s in first try of life, is an excellent runner, one to watch for. Dennis Tracy, jr., all-league x-country runner who can run anything from 220 up; "B" in exponents; and is the top middle-distance runner. Mile: Bob Beukers, is big, strong (6-2, 170); ran 4:45 mile in easy outing first try. Bob is only a sophomore. Chris Bravos, a "B" in exponents and also a sophomore, ran a 4:53 mile in his first-ever try at the event this year. Ran a 1:27.0 660 as a CIF finalist in Southern California last year. Both of these boys are on a schedule that will carry them under 4:30 this year.

Hurdles: Fenton Pettit, is also big (6', 165) and only a sophomore. Here is a natural, running 20.4 (fastest peninsula time) in first try of life at 180 low hurdles this year. He needs work on highs, but will prove to be his best event (16.2 first try). Jack Larson, (6', 150) has "senioritis" problems but should snap out of it now that an underclassmen has taken his top dog position from under him.

Shot Put: Mike Pignataro (6', 210) is a senior being hard-pressed by a junior, and several jumbo freshmen. Mike's best is 45 feet.

Discus: Dan Hartman is another leading sophomore (6-1, 200). Dan took a rest after winning the league heavyweight wrestling title, missing the Aragon meet where Westmoor was swept with 126 effort down. Dan threw 126 first day of practice. Phil Grubstick is also a sophomore on the team and number two man on the platter.

High Jump: Only stellar jumper on team is basketball standout Jack Kelly, a senior who went 5-10 last year. He will miss Hillsdale-Serra meet due to tournament.

Broad Jump: Kelly will lead here along with Pettit, Siegel and McCarthy. All have gone over 19'.

Pole Vault: Dusty Chase's graduation left some mighty big shoes to fill. Tim Gerner, jr., won Aragon meet with best-of-life 10-6. George Ellis, sr., first year out did 10' at Aragon.

Chev. Match Race Due For Cotati

The meet scheduled for this Sunday, March 17 at Cotati Drag Strip will feature the first big match race of the drag racing season at Cotati.

Top competition dragsters in the United States meet in a showdown for a total of $1000 for the winner of this special "Match Race."

Entrants are the world's two fastest and quickest Chevrolets in drag racing, the new Champion Speed Shop Special from South San Francisco. Sammy Hale will be at the wheel vying to set a new record against the 1961 Champion, Pete Robinson from Atlanta, Georgia driving the "Sneaky Pete Special."

Both cars have exceeded speeds of 180 miles per hour with e.t.s in the 8.21 second bracket and both cars have super-charged Chevrolet engines. This will be a two out of three match race and should be one of the most exciting races shown at the Cotati Drag Strip.

Last weekend at the Bakersfield United States National the new Champion Speed Shop Special was the only Chevrolet to qualify for the top Eliminator run-off.

Also expected for this race will be top stock and super-stock cars plus Bay Area's fastest dragsters with an additional purse of $1000 to the winners.

This event is sanctioned by the National Hot Rod Association. Free parking, grandstands and concessions are available. Gates open at 8:30 p.m.

Cotati Drag Strip is north of Petaluma on Highway 101.

Aero Motors Take Crown

BYA Aero Motors answered the question this week as to what is the best—a high-scoring offensive team or a consistent scoring good defensive team. In doing so, they defeated the PAL Bears for the championship of the Recreation Department's 7th-Grade Basketball League. The Bears went into the game a slight favorite after their early-season defeat of the Aero Motor team. First quarter play saw the Bears' high-scoring offensive break away to a 10-3 lead. Allan Olcese, Bobby Nolan, Ron Caserza, Phil Cherverllera and Dennis Smith all hit field goals for the Bears. Gary Stang hit a field goal for BYA and Mike Plyer contributed a charity to keep their team in the game.

Second quarter saw the Aero Motor defense strangle the Bear scoring. Olcese, Nolan and Smith hit for the Bears but Gary Stang and J. Anibale hit two field goals each. Vic Yerby tanked four charities and Mike Plyer picked up one on a technical for the Motor boys. This tied the score at 16-all at halftime. Second half action saw J. Anibale hit four, Stang and Yerby two each and Feldman one to move the Motors out in front. Bears' scoring was limited to one field goal and two free throws by Olcese and a free throw by Caserza as Aero Motors took over the backboard. Gary Stang took over in the fourth quarter, scoring with five points, and teammate Vic Yerby collected one more. Three free throws accounted for the Bear total in the fourth quarter.

Final score was Aero Motors, 31; PAL Bears, 24, as the best defensive team in the league spiked the guns of the high-scoring Bears to take the crown. Congratulations to coaches Gerry Plyer and George Brenk on their championship team and to coach Omar Grimes on his great second-place team, the PAL Bears.

Serra Bowl News

Big news in the immediate future for Serra bowlers is the forthcoming appearance of Steve Nagy, colorful national bowling champion, who will give a special bowling exhibition at Serra Bowl both in the afternoon and evening on March 28. Steve holds the 10-year ABC tournament high average of 208 and has a 5-year league average of 205.

John Craft, 155 average bowler competing in the Friday evening Park - Merced league, exploded on the lanes last week as he tallied a towering 654 series on games of 223, 225, and 206 leading his Westinghouse Electric team in a 3-1 win over Thomas Pierce Co. This 20-team league, the largest currently bowling at Serra, is now planning its summer schedule and teams are filling up fast. Anyone wishing to get in on the fun should call Gladys Porter immediately at WY 2-3444 for information.

Bill Braun topped his average by an even 100 pins and nabbed this week's high game honors with his big 247 singleton in B & G Mixed 5's action. His 590 total went a long way towards helping his Alley Cats team sweep all four points from the R. G. Ellis team in spite of a 56 pin handicap giveaway.

It was husband and wife night in the Astronauts mixed league last Thursday. Dick and Marie Scheele, both bowling on the Westlake Jewelers team, shot top scores for men and women as their team posted a 2483 high total. Dick blasted a fine 221-567 series while Marie trailed close behind with a sound 204-503 effort.

The small fry are currently showing to good advantage on the Serra boards also. Dennis Coleman, bowling in the Saturday morning Bantams, pounded out a solid 212-351 series as his Eagles team trounced the Hillbillies in both games of their recent match. Ruthie Beecher came on strong in the Jefferson High School league last week to register a big 502 series which included a resounding 203 game as her Jetsons team ran away from the Alley Cats for a 3-0 win.

In other action Frank Sangimino knocked 'em down for fair in the 828 Scratch with his 246-592 sharpshooting and paced his team, the Petty Realty Co., to a 3-0 win over Johnson's Grocery. In the Foremost Mixed 5's league Harold Forgie topped the scoring with his steady 194, 209, 200 games for a 603 total. Ray Roach tallied 568 on a 231 single game in the 806 Scratch and George Parashis caught fire for a 230-580 series in the Native Sons league.

A final item not to be overlooked is Lee Michelitti's 240-591 score in the Sunday Cocktail league last week. You're last, Lee, but certainly not least!

Friar Fred's Hints For Better Bowling - No. 11

Etiquette—Here are more rules for bowling that bear more careful attention than most novice bowlers usually exhibit:

Be ready to bowl when your turn comes up.

Stay in the settee area until it's your turn to bowl.

Be a good sport; encourage your teammates when you bowl in a league together.

Take an interest in the other person's bowling. Don't hesitate to learn by watching others.

It's SPARE TIME

Qualifying closes at midnighht March 17 with the Grand Rolloffs scheduled for 7 p.m. March 23. There is no cost to the ten bowlers who qualify for the Rolloffs, the top two in each of five classes.

Only seven pins kept Carol Dees from the coveted 600 Club membership as she led the Ladies 800 Scratch League with a 202 game and big 593 series.

Ed Medina shot a 202 game and 558 series as he led the Westmoor Handicap for the week.

The condolences of all Westlake Bowlers went to league secretaries Helen Matthews and Dick Shenneck on the death of their father.

Monday is usually a rather quiet evening around Westlake but last week was an exception as seven 600 series were posted. Top honors went to Rich Dryden of Duffy's Tavern for his 688 series on games of 206-237-245. Closely following Rich was Chuck York in the Canco League with a 669 series on games of 199, 203 and 267.

Property Tax Exemption for Vets Filing Ends May 6

San Mateo County Service Officer Floyd D. Granger today reminded veterans that beginning at noon, March 4, they can file or re-file for property tax exemption allowed under California law. The final date for filing will be May 6, 1963.

Veterans filing claims for the first time, or their spouse, says Granger, must appear before the county or city assessor with proof of war service or especially recognized peace service. From that time on, the claims can be filed by mail.

In order to be eligible for a tax exemption, the veteran must be a resident of California.

Under provisions of the law, the veteran receives a tax exemption property amounting to $1,000 valuation so long as he doesn't hold taxable and non-taxable property with a combined valuation of $5,000 or more. However, under California's community property laws, a veteran can obtain the exemption on property held by him and his wife as community property if the combined totals are under $10,000 value.

Before the exemption is allowed, the veteran's interest in the property must be of record on or before noon of the first Monday in March, in the San Mateo County recorder's office, according to Granger, except where the veteran's interest consists of an unrecorded contract of sale under which the veteran is obliged to pay taxes. Qualifications for exemption can be obtained by filing an affidavit.

Valentine Motif at Father-Daughter Night of Troop 43

The Valentine theme was the motif of the father-daughter banquet of Brownie Troop 43 on February 25.

The tables were decorated with a centerpiece of hearts and suckers, and a gum drop tree. Name tags of hearts were pinned on the fathers and daughters.

The flag ceremony opened the evening. Grace followed, with Terri Alba, Emely Barcena, Felicity Bensch, Laura Biagini, Colette Cussary, Debbie Cristofani, Karen Fleischer, Susie Jeppson, Colleen Nolan, Kim Pappas, Pam Proctor and their fathers sat down to a ham dinner.

The alphabet game and the Brownie skits and songs provided the entertainment for the evening.

The Hokey Pokey was participated in by the fathers and daughters and ended a well-planned evening for all.

Junior Chamber of Commerce Sponsors Cub Pack

Several representatives of the Daly City-Colma Junior Chamber of Commerce were guests of Cub Pack 182 at their Charter Installation on Thursday, March 7. The charter was presented by Mr. Sanoff, an affiliate of the San Mateo Council of Boy Scouts, to Kent Kofford.

Kofford is a member of the Junior Chamber and its representative of the Cub Scout Pack. He in turn presented the charter to Joe Bavaresco, president of the Daly City-Colma Junior Chamber of Commerce, sponsors of the pack. The charter will remain in the possession of the sponsoring group.

Chief Petty Officer Jack Kelly, another member of the chamber, inspected the pack and presented the official flags, a gift from the sponsor, to the five denners who represented the pack. Den 5 won the inspection and is honor den of the month.

Den 3 performed the candlelight charter installation ceremony, under the direction of Cubmaster Art Beighley. In this ceremony, four candles are lighted. A blue candle, representing eternal light of Scouting, remains lighted throughout the ceremony. Three white candles are lighted and extinguished as the boys give the Cub Scout Promise and the Law of the Pack.

The following boys received awards: Wolf Badges (for completing the first 12 achievements for the first level of Cubbing): Paul Bachman, Dan Woerz, and Mike Drocco; Gold Arrows (for completing the first 10 additional projects beyond the requirements for a badge): Paul Bachman, Dan Woerz, Louis Barrows and David Johnson; Silver Arrows (one for each 10 additional projects beyond the badges and Gold Arrow): Arthur Beighley, Brooke Kofford, Louis Barrows, and Dan Woerz. The pack also welcomed a transferring Cub, Eddie Titus, and his family.

Competition for the America's Cup grew out of the first contest to establish a world yachting championship, one of the carnival features at the London Exposition of 1851.

Endorse Smog Legislation

WASHINGTON, D. C. — Senator Clair Engle (D-Calif.) expressed pleasure with President John F. Kennedy's strong endorsement of Federal smog control legislation.

"The President's direct request for a Smog Control Bill greatly improves our chances of success in this Congress," Senator Engle said.

Senator Engle is principal author of an Air Pollution and Smog Control Bill which calls for a concentrated national effort to assist communities seeking to find a solution to the problem of smog and air pollution and proposes that the job be done in 10 years at the most.

The Engle Bill provides for Federal grants and loans for local communities and states in fighting and finding the causes of smog and a national research effort into the causes of air pollution.

"We can stop corruption of the air, but it's going to take down-to-earth research to do it," Senator Engle said.

He added, "Whatever it will cost to conquer air pollution will be small because smog now costs this nation about $11 billion—that's right, $11 billion—a year in damages."

Senator Engle said that Senate hearings will also consider possible Federal enforcement policies, such as those touched on in President Kennedy's message.

The Engle Bill does not specify enforcement policies as does another measure introduced by Senator Abraham Ribicoff (D-Conn.).

Assisting Mrs. Sosa at the dinner was Mrs. Ian Campbell.

Following a delicious dinner, the girls presented their program for the evening, which consisted of two hula numbers, taught to them by Mrs. Earl Hall, and an accordion solo, "Song of the Islands," played by Michelle Sosa.

The fathers and daughters attending were:

Ian Campbell and Lorna, Jack Dirickson and Denise, John Duling and Julie, Ernest Gonzales and Marian, Godfather Al Smith (sitting in for Earl Hall) and Amy,

Sons Of Erin To Parade Sunday

The United Irish Societies of San Francisco is moving forward with plans for the traditional St. Patrick's Day parade, which will be held on Sunday, March 17, with all the color and gaiety of former years, it was announced by Malachy Ruane, president.

Ruane stated that the traditional parade dates back to the year 1858 when the Association of the Sons of Erin marched from Bush andh Sansome streets to Mission Dolores.

This year, as always, the marchers will step off promptly at 1:30 p.m. from the Ferry building. This event will be preceded by a solemn high mass at St. Dominic's Church, Bush and Steiner streets, at 11 a.m. with Frank Jordan in charge.

Ruane stated that the multitude of parade arrangements details has been claiming the attention of George R. Reilly, parade chairman, who is a member of the board of equalization.

Ruane also announced that the official St. Patrick's Day grand ball, under the chairmanship of Andrew McKenna, will be held March 16 in the grand ball room of the Sheraton Palace Hotel, and the St. Patrick's celebrations will be concluded with a banquet following the parade March 17 at Del Webb's TowneHouse at Eighth and Markets streets under the direction of Cornelius Lynch.

Catholic Social Service to Train Volunteers for Home Visitation

A program entitled "Marian Visitors," to train persons to call at the homes of the handicapped, the enfeebled and the aging will begin March 19 and continue the following three Tuesdays, March 26, April 2, and ending April 9.

The four 1½-hour sessions will be held at All Souls School cafeteria in South San Francisco, Spruce and Miller avenues, from 8 to 9:30 p.m.

The course is designed to train parish volunteers in the most appropriate techniques of bringing parish life into the homes of the aging and the housebound. At the completion of the course, a certificate will be awarded. There is no charge for the course and it is open to all interested parishioners.

The first session will feature a film from the American Red Cross, narrated by Mrs. Joann Duckworth, a public health nurse. The film is entitled "The Road Back" and is the story of a rehabilitation following an illness. There will be a question and answer period after each program.

The second session will have as its speaker Miss Anna Bosch, executive secretary of the Catholic Social Service of San Mateo County. She will discuss the "Viewpoint of the Social Worker" and narrate a film, "This Is My Friend."

The third session will have as its speaker Father Edwin E. Barker, the associate director of Catholic Social Service of San Mateo County, who will speak on "The Parish Needs."

The fourth and final session will be a talk on "The Physical Needs of Older People," by Dr. William Feeney of St. Mary's Hospital in Daly City.

A graduation ceremony will follow with the presentation of the certificates. Father Regan, former director of Catholic Social Service, will make the presentation.

The Marian Visitor program is sponsored by the San Mateo Council of the Archdiocesan Council of Catholic Women.

Mrs. Robert L. Clark of San Mateo is the chairman of the Catholic Committee for the Aging. She is assisted by Mrs. O. C. Moroney of Burlingame and Mrs. Charles Creighten of San Mateo.

WOMEN'S ACTIVITIES

From A Feminine Viewpoint...

By Mona Baker

Green shamrocks on the walls, green carnations at each table—the decor was in honor of St. Patrick's Day as a capacity crowd enjoyed last week's YWCA fashion show at Westlake Bowl.

Inspiring "ohs and ahs" from the assembled guests were the dramatic spring ensembles from The Fashion and the high fashion matching shoes and handbags from Blooms.

A show stopper was Nancy Warne in green capezios and gay printed top with Vogue and Harper Bazaar motif over sleek fitting white capris. Dramatic was Dorothy Orlich in exotic spring ensemble of sleeveless black coat over black and white print.

Rating whistles from male guests in the audience was Suzanne White in her "little boy" bathing suit, topped by red knit shirt. Smartly dressed for a vacation was Ann Johnson in her beige bermudas and bone thongs by Bernardo. A brilliant peacock blue knit suit was modeled by Ginger Straight. Certainly an exciting contrast to her beige three-piece suit were the tangerine shoes and matching handbag worn by Doris Fox. Quite charming was Sue La Cour in white pique with scalloped hemline. The newest look for spring "suitables" was shown by Phyllis Odenthal in vibrant red with pink chiffon tie. Ardelle O'Connell selected a most dramatic sleeveless sweater with unusual brass rings and colored yarn trim to top her capris. Quite adorable were the bermudas in daffodil yellow worn by Marcia McGuik. In a party mood was Muriel Wyman in embroidered white organdy. A dramatic closing for the show was the elegant full length gown with rose print worn by Lynette Erlach featuring a slit in the skirt on one side only. Quite elegant, too, were her black peaux de soir shoes.

A genuine interest in activities for young people has been shown by our community leader this week. She has given six years of volunteer work for the Girl Scouts and is now leader of Girl Scout troop No. 447 and neighborhood chairman for Serra Skyline area for the San Mateo Council. She also was den mother of Cut Scouts for two years.

In addition to her Scout work, she has been active in Broadmoor Presbyterian Church, serving as secretary of a women's circle and representative to Cameron House.

She is a member of the Bay Area Forestry Wives group and is now serving as the welcoming chairman. She has always been a willing worker in every fund drive held in the community.

We salute Esther Shively, our community leader of the week. Residents of Westlake for seven years, the Shively family, husband Paul, and three children, Ron, Betty and Norman, live a 112 Westmoor.

Calling all parents of Wesetmoor students — do set aside the date March 21 and plan to attend the monthly meeting of the PTA. A most entertaining program has been planned, presenting the new drama department. Robin Jackson, drama teacher, will explain the activities of his department, and drama students will act out impromptu skits. The second half of the program will be the presentation of a one-act play, "The Sandbox," by Edward Alvee. The meeting will be at 8 p.m. in the Little Theater. Coffee and refreshments will be served.

Memo to all PTA program chairmen, who will soon be making up their fall calendars — the new community orchestra will be available to play at PTA meetings. By the way, too, the new orchestra still needs members for the string section. For information concerning the activities of the new community group or for appearances, telephone Westlake Music Center, PL 6-2434.

"In Your Easter Bonnet"—the fashions will be for Easter and the music, too, as Daly City's popular women's chorus, the Belle-Tones, present a special musical program at the coming YWCA luncheon-fashion show (April 4) at Westlake Bowl featuring fashions from Penney's. Also appearing with the group will be their new accompanist for the chorus, Susan Boyd. The Belle-Tones are sponsored by the Daly City recreation department.

NEWS BRIEFS: Meeting this Thursday evening is the executive board of the Daly City Friends of the Library which will be discussing plans for observance of National Library Week in April when they will hold an evening book review.

Also meeting this Thursday evening are the Lionesses with hostesses for the dinner meeting, Veronica Ceccato and Frances Whalpley.

Recent guests at Del Monte Lodge at Pebble Beach were Mr. and Mrs. Albert Gallegos of Mission street.

Visiting at the Michael Martinez home was Pat's mother, Mrs. Neil B. Walker from the Peninsula.

Latest addition to the sales staff of Fern Warner Maternity Shop is Westlake resident Shirley Elder.

No pre-sale is planned by Holy Angels Women's Guild, which will hold its annual rummage sale on April 23 at the National Guard Armory in San Francisco.

Rare and unusual dolls, doll houses and doll furniture will be in a special display when the Daly City recreation department hold its fourth annual "Doll Show" on March 23 and 24.

Hawaii Is Setting For Spinetti-Cubic Honeymoon

A honeymoon in Hawaii followed the recent marriage of Dolores Ann Spinetti and Donald M. Cubic, who recited their vows at Our Lady of Perpetual Help Catholic Church.

The young couple are graduates of Jefferson High School and have been active in Daly City youth organizations.

For the noon nuptial mass, Dolores donned a full-length gown of white satin which was styled with a wide neckline and princess bodice. The gown terminated in a short chapel train.

Escorted to the altar by her father, the bride also wore a shoulder-length veil which had been secured by a pearl tiara. White orchids in a cascade arrangement composed her carrying piece.

For her maid-of-honor, the bride selected Sandra Lyon of Napa. Completing the feminine attendant group were Joann Spinetti, the bride's sister; Cathy Cubic, the benedict's sister; and Sue Rudometkin and Nancy Reganelli, former school friends of the new Mrs. Cubic. The flower girl was Patti Spinetti, also a sister to the bride.

All of the girls wore frocks of red velveteen and carried white muffs accented with red carnations. Their short veils were also red and were fastened by matching velveteen roses.

Bill Hopman served as best man for Donald and ushers were Richard Barsotti, John Margaroni, Richard Ward and Don Aiello. The ring bearer was Johnny Hiese and Father Matthew Sullivan officiated at the double-ring ceremony.

For the happy occasion, the Daly City church had been decorated with standards of white chrysanthemums and gladioli.

Before cutting their three-tiered wedding cake, the newlyweds greeted their guests at a reception at the House of Lawton immediately following the ceremony.

Dolores is the daughter of Mr. and Mrs. Joseph F. Spinetti of 57 Muirwood drive, Daly City, and Donald is the son of Mr. and Mrs. M. V. Cubic of 306 Chester street in Daly City.

As she welcomed friends and relatives to the nuptial gala, Mrs. Spinetti wore a blue and gold brocaded dress and the groom's mother, Mrs. Cubic, wore a sheath dress of champagne lace. Both also wore orchid corsages to compliment their ensembles.

The new Mr. and Mrs. Cubic are now living in San Francisco, where both are employed by an insurance company.

"MEMOS" FROM YOUR Stylist

By: MR. ROBERT

The woman of today can scarcely match her sister of centuries past in the matter of makeup. The nicer ladies of Jezebel's day blacked their eyebrows with manganese and antimony, and tinted their eyelids, upper and lower as well, with gaudy greens and yellows. Red ocher was rubbed on their lips and vegetable dyes on their fingernails.

More recently we note where the author of a fourteenth-century **Book of Vices and Virtues** rebuked ladies for incessant looking in mirrors and combing their hair—'tressing it in many tresses to make it straight and seem crisp.' So, it would appear that the ladies of today with a reasonable and understandable concern for their appearance are merely following a mandate handed down virtually at mankind's beginning.

Perhaps the shortest and most direct route to beauty for the local feminine contingent is in the direction of MR. ROBERT'S SALON OF BEAUTY. Our operators and stylists know beauty in its modern form and feature personalized attention to the customer. Make your appointment at MR. ROBERT'S SALON OF BEAUTY, 198 School St., soon. Diane Colthurst Married At O.L.P.H.

By Bunnie Gillespie

Romantic news was made recently at Our Lady of Perpetual Help Catholic Church in Daly City as Diane Colthurst became the bride of Lajos Moczar at a 10:30 a.m. nuptial mass.

Officiating at the ceremony was Father Matthew Sullivan.

Diane, who is the daughter of Mr. and Mrs. J. E. Colthurst of 93 Muirwood drive, sentimentally donned a white faille full-length gown for her marriage, that had previously been worn by her sister Peggy, as she became the bride of Mark Chatigny, about 20 years ago, and by her aunt as she exchanged vows with Frank Madigan almost a quarter of a century ago.

The gown was styled with a long train and the bride's full-length caramia lace veil was secured with a bandeau trimmed with pearls. Diane carried a shower arrangement of pink and white carnations.

Her sister served as matron-of-honor at the Saturday wedding. She wore a street-length frock of pink satin and a bandeau of pink carnations. Her small bouquet was of similar pink flowers.

Serving as best man for Lajos was Ferenc Rosztoczy of Menlo Park and the masculine contingent in charge of seating guests included the bride's uncle, Frank Madigan of Oakland, Assemblyman Leo J. Ryan, John Muller, Roy Thomson and Thomas Noonan. Escorting the bride's mother to her seat was Diane's brother, Robert Colthurst.

Following the ceremony, a champagne reception was held in the Cascade Room of Joe's of Westlake.

The new Mrs. Moczar was graduated from the San Francisco College for Women (Lone Mountain) after completing preparatory schooling locally. A student of medieval history, she was awarded a Fullbright Scholarship and attended the Sorbonne in Paris for two years. Returning to the United States, she received a Woodrow Wilson Scholarship and furthered her education for one year at Columbia University in New York. After working with the U. S. government in Washington, D.C. for a short time, Diane returned to the Bay Area and continued her studies at the University of California, where she met Lajos.

The bridegroom is a student of business. He will be graduated from UC in June.

The new Mr. and Mrs. Moczar honeymooned in Carmel and are currently living in Berkeley. Their future plans include a European sojourn to visit the bridegroom's relatives in Hungary.

Newlywed Jamesons To Live In Sacramento

At home in Sacramento are the recently-wed Mr. and Mrs. Jim Jameson, who were married at Our Lady of Perpetual Help Catholic Church.

The bride is the former Lorraine Storm, daughter of Mr. and Mrs. Sylvester Storm of 744 Niantic avenue in Daly City, and her husband is the son of Everett Jameson and the late Mrs. Jameson of 644 Sierra Point road in Brisbane. were graduated last June.

For her nuptial date, Lorraine selected a full-length gown of white velvet which was fashioned with a chapel train and satin cummerbund. Her finger-tip veil was secured by stylized roses with pearl accents, and she carried a cascade arrangement of white carnations and bridal orchids.

Lorraine was escorted to the altar by her father. White stock and gladioli, with candle arrangements, decorated the sanctuary for the 5:30 p. m. mass. The Rev. Matthew Sullivan officiated.

Lorraine's attendants were similarly dressed in street-length sheaths of dark green velvet, with short-veiled green head coverings. Their floral bouquets were of gold carnations with green ribbon.

The maid-of-honor was Carole Benson and bridesmaids were Arlene Day, Judy Allen and Diane Starkovich, all of Daly City, and Paula Cosby of Mountain View. Linda Hebart, the bride's little cousin, served as the flower girl and wore a full-skirted frock of light green chiffon and velvet. Her bouquet was of yellow and green flowers and she wore a matching headband.

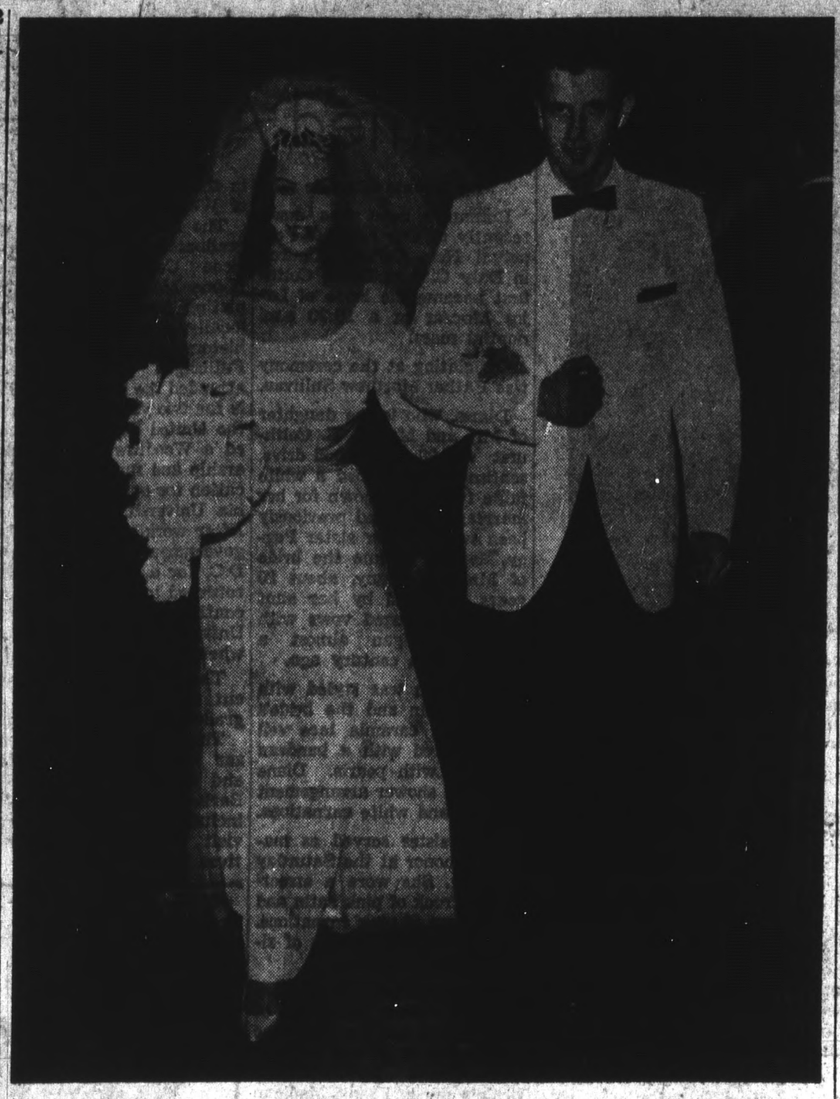
Everett Jameson, Jr., officiated as best man and the seating of guests was conducted by Mike Roval and Skip Del Sarto. Other members of the masculine contingent were Lorraine's brother, Leroy Storm, and Pete Bell, Darwyn Haanen and Stewart Sibley.

Following their marriage, the newlyweds greeted approximately 250 friends and relatives at a reception held at the home of the bride's parents. White stock and carnations were used in profusion to decorate the home.

As she welcomed guests, Mrs. Storm wore a sheath dress and jacket ensemble of beige brocade.

After sharing their three-tiered wedding cake, Lorraine and Jim left for a brief honeymoon in Carmel before going to the state capital to live. Jim is currently assigned to McClellan Air Force Base.

The young couple both attended Jefferson High School and in 1962 were selected the "Couple of the Year." They were graduated last uJne.



RECENT ADDITIONS to the newlywed set are Mr. and Mrs. Jim Jameson (Lorraine Storm) who were married at a candle-light ceremony in OLPH Church. (Photo by Don Bosco.)

Step Dance Competition At Annual St. Pat Ball

A bevy of young Irish step dancers, traditionally costumed and ranging in age from 5 to 17, will highlight the annual American Irish Society's St. Patrick's Day Grand Ball at the California Hall, Polk and Turk streets, S. F., Saturday, March 16.

The children, nearly a hundred of them, will compete for the State Irish Step Dancing Championship, and for the first time the contest will be held in two divisions.

Despite their tender years, most of these youngsters are veteran performers and in order to give the less expert contestants a chance to win, the judges have ruled that previous winners must be judged in an "expert" class.

An added attraction of the ball, which will begin at 8 p. m., will be an exhibition of Irish dancing by Mrs. Maureen McTaggart Hall, who was All Ireland Champion of the Irish step dancers in Ireland. Mrs. Hall will also help judge the contest.

In keeping with the theme of the ball, "A Night In Ireland," Eddie Harkness and his orchestra will punctuate the evening's dance music with a number of authentic Irish folk songs.

GEORGE SIMON IS INDUSTRIAL CONVO ENROLLMENT CHAIRMAN

George Simon, Westmoor High School industrial arts teacher, will be working overtime tomorrow through Saturday as registration chairman for the annual California Industrial Education Association convention.

Having held an office in San Mateo County Industrial Education Association, and serving now as secretary-treasurer of the bay section, Simon is not new to what the job of registration entails.

To be held at Brooks Hall in San Francisco, the convention will feature exhibits of manufacturing, equipment technology for teaching, and a "scramble session" Saturday where the best teaching methods will be discussed.

Speaking before the 3,000 industrial educators will be Dr. Ben Willis, superintendent of schools in Chicago and Ken Dawson, secretary-treasurer of the American Association of Industrial Arts. Also speaking on the convention's theme, "Challenge in Industry," will be Dr. Max Rafferty, state superintendent of California schools, and Dr. Schmitt, from the U. S. Office of Education.

Westmoor High School seniors Mike Hunter and Tom Ottoman will also be at the convention, demonstrating the latest techniques in drafting.

SSF Students Display Exhibits

The cloud chamber, solar furnace, effects of smoke, and stress on metals are four projects being entered by students at South San Francisco High School in the annual SSF Science Fair.

Roger Magill, senior, will show a cloud chamber in which can be seen the actual trails of atoms. Using a solar furnace such as the one built by James Carlson, sophomore, it is possible to harness the energy of the sun.

Ronald Sperlich, freshman, and Pete Vigil, sophomore, are experimenting with the effects tobacco smoke has on animals. Eugene Nelson, senior, will present his project on the stress concentration in metals, a study in the chemical make-up of metals.

These projects and others can be seen March 15 and 16 at Spruce School in the Science Fair, sponsored by the Enterprise Journal. Cash prizes and certificates of recognition will be awarded. The grand prize will be $50. There will be a first, second, and third prize in each of the four classifications by grades 4-12. The cash prizes will be $25, $15, and $5 respectively. Each grade, four through 12, will receive three ribbon awards for the three best projects within its grade level. Each entrant will also receive a certificate of participation.

These projects will be judged on a point system as follows: creative ability, 30 points; scientific thought, 30 points; thoroughness, 15 points; skill, 10 points; clarity and dramatic value, 15 points.

Third-Graders Visit Model of Bay in Sausalito

The two third grades at Olympic School visited the Bay Model at Sausalito, California. The trip initiated the unit of study "The San Francisco Bay Area" for the classes of Mrs. Patricia Mattson and Mrs. Foula Lamp. Their student teachers, Mrs. Joyce Le Grange and Miss Marquerite Scarato, and two mothers, Mrs. John Griffith and Mrs. Monte Hill accompanied the groups.

Using their experience with train, bridge, and building models, they broadened their concepts of the use of models. They saw the hydraulic model of the bay built by the U. S. Army Corps of Engineers used as a scientific instrument to study tide movements, the formation of sediment deposits in various places of the bay and the mixing of fresh water with sea water.

The concrete model measures 340 feet long and 340 fet wide and shows an area from Alviso to Napa and from the Pacific Ocean to Antioch. The horizontal scale of the model is one foot for each 1000 feet to take care of the width shown and the vertical scale is one foot for each 100 feet, because many parts of the bay are very shallow. Even time is scaled and a 24 hour period can be shown in 15 minutes.

The children identified the islands in the bay, the eight highway bridges, the smaller bays, the various straits, the rivers which empty into the bay and the cities around the bay area. They saw for themselves why sand bars, formed after torrential rains, could immobilize ships as they had read in the newspapers during our last big storm.

College Students Observe at Olympia

Three students under the supervision of Dr. E. Psaltis from San Francisco State College have been assigned to Olympia School. They are observing, planning, assisting, and teaching in the various subject areas. Miss Claudia Biane is with Mrs. Kathryne Snell's first grade. Miss Marpuerite Scarato has been placed in Mrs. Foula Lamp's third grade and Mrs. Joyce Le Grange is working in the third grade with Mrs. Patricia Mattson.

This is their first assignment for student teaching and when they have completed the eight weeks at Olympia School, they will be reassigned for the remaining part of the semester to other grade levels.

Teen Club Plans Tahoe Ski Trip, Fashion Show

The Westlake - Broadmoor Teen Club will hold a fashion show on Monday, March 25, at the Westlake Bowl banquet room. The girls in the club will model clothes from The Fashion of Westlake.

The fashion show, with a motif of "Spring Designs," is a Mother-Daughter affair, with refreshments planned to complete the evening. Admission will be free but reservations are required. The reservations may be made by calling Mrs. Ickler at WY 2-2877. The review will begin at eight o'clock.

The preceeding weekend will be a busy one for club members as a one day ski trip is planned that will include traveling to Tahoe, a full day there, and returning that night. This trip, slated for March 23, will be free to all members. Those who join the club within a week preceeding this trip may also go fare free. The requisite dues are five dollars per family.

A Delightful Trip To San Francisco Zoo

The kindergarten children in Mrs. Hammond's classes, who are studying the habits of animals, recently enjoyed a trip to the Zoo, accompanied by room mothers Mrs. Michael Hagstrom, Mrs. John Snoland and Mrs. Alex Kokales in the morning group.

Mrs. Glenn Forcum, Mrs. Vincent Hussy and Mrs. Donald Irwin went with the afternoon class.

A few days later, Mrs. Alex Kokales shared with the kindergarten children a film of the kindergarten activities during the year. Included was a delightful review of the children's recent experiences at the zoo, which helped to culminate the learnings and added to the interest and enjoyment of the children.

Early this week, Mrs. Richard Phillips drove to Oakland to the state hatcheries and brought back setting eggs to the kindergarten classes of Mrs. Hammond and Miss Paccagnella. The children are studying about spring, growing things, and the farm.

Classroom "carton gardens" are beginning to function. While a close daily watch is being kept on the eggs in the incubator, the children are counting the days (literally) until the baby chicks and baby ducks will emerge into the world.

Lots Of Candidates For Rally Committee

With many plans turning already towards the activities of the next school year, Westmoor High begins its rally committee training program welcoming 108 potential candidates.

Yesterday a test was given to the trainees on the rules of basketball and football. Those who passed 75 per cent of the questions will go on to the second phase of the program. The second phase includes the veteran rally committee members teaching the newcomers yell motions and basic movements used in a pompon routine.

Performing in front of six judges—three students and three faculty members, candidates execute a yell or a self-originated pompon routine. On the basis of this, competition will be screened to ten varsity cheerleaders, eight frosh-soph cheerleaders, ten pep-girls, and two mascots.

On May 15 these people will go in front of the student body, the members of which will make the final selections. Elected finally will be the five varsity and four frosh-soph cheerleaders, five pep girls, and one mascot who will serve during the school year 1963-64.

Boys, too, are participating in the program this year. To further advocate their participation, this year, the new ruling reads: the mascot must be a boy.

Discussion Group Sponsors Broadcast

When the trumpets and cymbals sounded and the play was announced, six students and two teachers settled themselves for the 90-minute BBC broadcast of Agamemnon.

Ad Lib, Westmoor's discussion group, sponsored the listening session.

From Mr. John Milton's French 8 class were Charlotte Corvo, Eugene Poggio, Marilyn Downey and Ann Irby, who heard the play for background knowledge to the Greek tragedy they are currently reading in French. Robert Stout and James Butler represented the Ad Lib Club.

Club advisor, Mr. Selwyn Jones, and French teacher, Mr. Milton, were likewise present.

Leading breeds of dogs registered with the American Kennel Club in 1960 were, in order, poodles, beagles, Chihuahuas, dachshunds, German shepherds.

TV and RADIO

By Mona Baker

At long last—a fashion show on television! For years now we have been conducting a sort of "one woman" campaign for fashion shows on television. We are convinced that the stations have been missing a bet when they schedule daytime programs for the women's audience and yet never seem to wake up to the fact that women of all ages enjoy fashion shows. There have been several fashion show specials—Macys sponsored two—but never on a continuing basis.

All that is now changed. Beginning March 19 (2:55 p.m.) and every Tuesday there will be a special "Fashion Preview" over ABC, KGO-TV with fashion model Suzy Parker and McCall's fashion editor, Virginia Steele commentating. The first program will show fashion reflecting the influence of the far east and will be titled "The Influence of India."

Unfortunately, the weekly series is only for five minutes a day, but at least it is a start. We would like to see a half hour show every week devoted to fashion and telecast in color. If you feel the same way, watch the first program and then drop a note to the station. They do listen to constructive criticism, so perhaps we'll get that weekly show yet.

—★—

Do hope you registered for televised First Aid course over KQED (Mon. 4 p.m., 7 p.m.), presented in cooperation with Bay Area Red Cross including the San Mateo chapter. If you didn't have time to register and work toward your first-aid certificate, why not plan to watch anyway. We watched the first program and found it most beneficial. They are giving important knowledge that everyone should have to take care of emergency first-aid situations. This knowledge may help you to save a life someday.

—★—

IMPORTANT TV DATES: Over ABC, KGO-TV, special titled "Hollywood: The Great Stars" (March 13, 10 p.m.) covering the story of the development of stars and their influence on the public.

Two "must see" programs over NBC, KRON-TV are "Bob Hope Show" (March 13, 9 p.m.) and a documentary on California with Edwin Newman narrating titled "California, the Most" to be seen this Thursday, 7:30 p.m.

Another in the outstanding WBC televison series for young people will be seen over KPIX, March 17, 6 p.m., titled "Baird's Eye View" tracing the evolution of puppetry.

Over KQED March 13, 9:30 p.m. "Gilbert and Sullivan, Part I" with musical excerpts from "H. M. S. Pinafore," "The Pirates of Pensance" and other familiar ones.

Industrious Artists At Vista Mar School

If you happen to stroll into Vista Mar one of these days, walk quietly because there are many industrious artists at work in the courtyard. Vista Mar has undertaken the job of decorating their "toadstools." Each third, fourth and fifth grade class is in charge of one, designing and creating their mosaic designs. They are using tile, broken glass, marbles, shells, and "anything that they can find." (By the way, if you want to be a part of this project, you can leave your contributions in the office of Vista Mar.)

Not only does the school have artists, they have athletes also. a Fistball tournament has been going on during the noon time involving the fourth and fifth grades. At an assembly, the boys and girls from Mrs. Frances Lanthier's room received their first prize banner. The boys from Mrs. Peggy Christgau's room and the girls from Mrs. Angeline Friedman's room received their second place certificates. The boys from Mrs. Friedman's class and the girls from Mrs. Jeane Oberlander's room received the good sportsmanship banner.

Sharing honors with athletic and sportsmanship awards were the presentation by Student Chairman Donald Wood of the "Citizen of the Month" awards. Receiving these were: 1st grade: Room 7—Ralph Barringer and Olga Kennedy; Room 6—Howie Harband and Chris Yohannan; Room 8—Greg Pulliam and Marta Baker. 2nd grade: Room 10—Tommy Geller and Cindy Carr; Room 9—Michael Montanos and Debra Perret. 3rd grade: Room 4—Philip Frederico and Rhonda Gernetti; Room 5—Marty Goldberg and Anne Gunthorp. 4th grade: Room 12—Robert Bosetti and Beth Duncan; Room 11—Jim Karidis and Kary Mitchell. 5th grade—Activities—Steven Gonzales and Michelle Montanos; Room 2—Marty Hechht and Carolyn Bjorkquist; Room 1—Bob Peters and Laura Pacitti.

Some of these students received, for the second consecutive month, the vote of their class for good citizenship. On the badge that they proudly wear is a gold star.

Students displaying gold stars on their badges are: Greg Pulliam, Tommy Geller, Debra Perret, Anne Gunthorp, Steven Gonzales, Carolyn Bjorkquist, Bob Peters, Laura Pacitti.

Lakeside Pastor To Speak To B'moor Men

The Rev. Dr. Clark Neale Edwards, minister of San Francisco's Lakeside Presbyterian Church, will be the guest speaker at the monthly dinner meeting of the Village Churchmen, the men's organization at Broadmoor Presbyterian Church, this coming Monday evening at 6:15 p.m. in the church social hall. His subject will be "The Set of the Wing."

A native of Higginsville, Missouri, Dr. Edwards was educated at Park College, Mo., McCormick Theological Seminary at the University of Chicago, and received his DD at Maryville, Tennesssee. Prior to his move to San Francisco in 1954, he held pastorates in Detroit, Mich., West Palm Beach, Florida, Birmingham, Alabama, and Philadelphia, Pa.

There is a close tie between the two churches, according to Collins Orton, president of the Churchmen, since the original building that housed Broadmoor's budding congregation, a tiny, war-surplus metal and tar-paper structure, had served a similar purpose for the Lakeside church.

Said Orton, "Lakeside finished their present sanctuary in 1949, just when we were organizing our church in Broadmoor. Their old building had been at the corner of 19th and Ocean Avenue, where previously it was known as the Little Chapel of Lakeside, and then Lakeside Presbyterian Church. When they moved we got the building from them, moved it to Colma and used it until it was torn down to make room for the present sanctuary, built in 1957."

HOPE LUTHERAN CHURCH which rests on the hill above Junipero Serra boulevard at 55 San Fernando Way, Daly City, was originally formed in 1948. This church was dedicated in 1956. The architectural design won many awards.

Hope Lutheran Church Founded In 1948

The Hope Lutheran Church began with the opening of a Sunday school on Nov. 14, 1948, in the Broadmoor Community Center. On Aug. 14, 1949, the first pastor, Max Zschiegner, was installed.

That first Sunday, there were 35 children in the Sunday school. Pastor Zschiegner served until the end of 1950 at which time he accepted a call to be a missionary in Japan. The next pastor was the Rev. Lewis Louis Marting, who was installed March 4, 1951.

Growth was slow and steady until the building of the new church in 1955. The church design won a number of architectural awards. In January, 1954, the building program was launched. Groundbreaking was held March 30, 1955, at the present site at the former Old San Pedro Road. The church cost $100,000. It was completed and dedicated April 8, 1956.

The major part of the labor in building the church was contributed by the members.

On June 18, 1961, Pastor Marting preached his farewell sermon and took a pastorate in Hawaii. Then the Rev. Paul R. Malte was installed on Oct. 1, 1961. His pastorate ended in April of 1962.

The Rev. Arnim H. Polster was installed on Aug. 15, 1962. The church presently has 273 communicant members—about 495 souls in all. The church hosts a very active youth program, Walther League, outstanding in service projects and social activities.

The Women's Guild is active. Included in the women's activities are the Bible class and various circles.

The church recently expanded its board of elders.

At present, plans are being studied for acquisition of a new parsonage and also expanding the Sunday school wing of the church, which will be a major building project.

Daytona is no "private" test arranged by a manufacturer to favor his car's strong points. It is open competition—anyone can enter—and the one thing that is proved by its searing 500 miles is just exactly how well a car hangs together. At Daytona, Florida, on February 24, five brand-new 1963½ Fords showed the world what durability means by sweeping the first five places. And that has never been equaled in Daytona history!

The box score at the left tells the true story...car endurance that takes brutal punishment and comes back for more.

No proving ground can equal this kind of torture. Daytona was a challenge we welcomed, a chance to prove in open competition the essential durability that makes possible the silence, the solid road-grip, the ease of control, the balanced braking . . . and all the other things that go into Ford's concept of *total* performance.

These were the same '63½ Super Torque Fords that made styling history at their preview at Monaco, and which were recently announced at your Ford Dealer's. They're *yours now*: get behind the wheel and find out for yourself what *total* performance means!

Gospel Singer At Broadmoor Nazarene Church

The Gospel Singer, Musician and Evangelist, Freddy Lindblad of Santa Cruz, will again appear at the Broadmoor Church of the Nazarene, Sunday, March 17 through Sunday, March 24.

Whatever he appears, Lindblad has one theme, for which he crusades constantly. His music, dramatic sketches and informal talks always center on the American home scene. Caricature, anecdote and rare witticism are all slanted invariably toward his recommended effective preventive to delinquency, his slogan "Building Happier Homes and Better Neighborhoods."

He has spoken regularly before some of the nation's largest church groups: Calvary Baptist, New York; Moody Church, Chicago; Tremont Temple and Park Street Church, Boston; Baptist Tabernacle, Atlanta; First Baptist, Orlando; Fourth Presbyterian, Bronx. He accepts invitations even to the smallest groups, whether collegiate or mountain people because of his mission to aid the families he can contact by this means.

Sometime during each of his family life crusade series he will produce one of his simulated radio programs in which he sings, speaks and accompanies himself in the manner of his "three-man-in-one" broadcasts. He conducted his own radio broadcast for five years in New York and Pennsylvania.

The announced topic for his opening service on Sunday, March 17, at the 10:50 a.m. service is "Home Was Never Like This," being a study in contrast with a refreshing Bible exposition, a series of new home-life choruses and a story for children entitled "Mother Bird Teaches Survival." Sunday evening at 7 p. m. his topic is, "The Trees of the Lord, or Revival that is Real." Monday, March 18, at 7:30 p.m. the topic is "One Woman's Family, or She Forgot Her Alibis." Tuesday, March 19, "Spotlight on Dad, or It's a Man's Job." Wednesday, March 20, "What, No Problems?"

All are invited to share in these Homebuilding Services nightly, except for Saturday when no service is scheduled. The Church is located at Washington St. and Edgeworth Ave., Colma, near the Safeway Store.

WHAT'S DOING
T. P. Coyne, your Telephone Manager in Daly City

This is the "granddaddy" of every new telephone handset we install. It's a picture of the steel model from which we make molds for plastic telephone handsets. And it's as precision perfect as modern men and machines can make it. Last year from this model came more than 11,000,000 handsets to go with every phone from little Princesses to large Call Directors. It's a "shining example" of how good design pays off in mass-production—and telephone economy.

When out-of-town family or friends have a birthday, telephone your greetings. It's easy and it's fun to send your birthday wishes across the miles by telephone.

Additional listings in the telephone book for other members of your family are a good way to insure they won't miss out on any calls. Requests for additions or changes in the 1963 directory must be placed before July 10, 1963. You can find out more about this service with a call to your telephone business office.

Planning to move? It's a good time to start planning for those extension phones you've always wanted. At no extra installation charge we'll put in extension phones when we install your new service. If you'd like some help in deciding the kind of phones you want, and where they can be placed to serve you best, just call the telephone business office or talk to your telephone service man.

One of our safety men said it, and all our telephone drivers agree: Fastening your seat belt is one "snap" decision you'll never regret.

Threat In Every Home

It is estimated by a recent United States National Health Survey that 822,000 Americans are poisoned each year—and that of this number, more than 300,000 are children under five years of age. Further, more than one-fourth of those who are fatally poisoned during a 12-month period are in this under-five age group, according to the National Safety Council.

This means that poisonous substances, both liquid and solid, constituted a more vicious killer than polio, diphtheria, scarlet fever and measles combined. It means that the failure of adults to protect infants against the obvious perils of drugs and chemicals still remains a greater threat to the survival of our offspring than any other medical problem!

And since these figures on unnecessary, accidental, poisoning deaths were even higher in 1961 than in 1960 for both adults and children, it is apparent that the need for such home-safety campaigns as the annual Bauer & Black "Clean Out Your Medicine Chest" drive is more critical than ever.

In its fifth consecutive year of striving to prevent these all-too-common tragedies, this manufacturer of first-aid products urges these safety rules:

1. Keep all drugs and medicines for out of reach of children

2. Label all containers; mark prescriptions with date, dosage and patient's name.

3. DO NOT keep cleaners and other toxic chemicals in medicine cabinet.

4. POUR DOWN THE DRAIN all old unlabelled medicines. NEVER throw in waste-basket.

5. Before giving or taking any drug, READ LABEL IN A GOOD LIGHT.

6. Paste these day and night phone numbers inside the cabinet door:
Physician
Druggist
Poison Control Center (Consult your Public Health Office)

7. Safety-check your medicine chest NOW and twice a year BY THESE RULES.

It is a good idea, if we may suggest it, to note what isn't in the cabinet—as well as what is—and stock up on the essential first aid items, pain and cold remedies that should be there. The druggist has a special safety folder that lists these needs for you.

Again this year—in spite of warnings and advice—hundreds more who are now in good health will die of poisoning. The time to make sure this tragedy cannot strike wour household is NOW.

Eden Regained

It is a reasonable assumption that there was no poison ivy or poison oak in the Garden of Eden, or the uniform of the day would have been something more formal than a fig leaf.

But it is an equally reasonable certainty that these vile weeds flourished just outside the gate—as they do everywhere else—and that ever since the Fall of Man they have sorely plagued the human race.

Eve, no doubt, was the first to experiment with herbs and charms and even incantations to relieve that itch we dare not scratch! And dozens of preparations—perhaps hundreds of them—have been developed since. Some now available do a good job of soothing the victim—after the poisoning has taken place. Avoidance, however, has been the only prevention—keeping out of the woods and fields, shunning the hikes and cook-outs, camping, hunting and fishing.

But that, we are told, was yesterday. Today, your doctor has news for you! Ask him about tablets or hypodermic shots for poison ivy and poison oak immunization. But don't wait for spring. Even if you start now, those treacherous vines will be lying in wait for you before you finish the six-weeks course of treatment.

Here is a medical breakthrough for everybody—and one that will go down in the history books as making the world safe for the Sunday School picnic!

Got Any Wooden Nickels?

Anticipation of a $12 billion deficit and a $20 billion boost for the debt ceiling can hardly fail to make one ponder the inflationary effect and with it, the durability of the paper dollar.

Thus, the report of the American Institute for Economic Research that the US Mint is working overtime to meet the demand for hard coinage, the discovery that collecting silver dollars is becoming popular, together with increasing use of silver in industry all help to explain the rising price of the metal.

At last report, the value of the silver in a cartwheel was only a shade under the face value of the coin. If this trend continues, it may yet be unlawful to possess this metal!

But we can console ourselves with the truism that fingers came before forks.

The View From ..Behind The Badge

Written and Edited by Daly City Police Department

BUSINESS IS DEAD . . .

You have finished an excellent lunch and are settled down to a Narcotics Officers meeting. You are not destined on this day to deal very much with narcotics matters, however; instead, you deal with a shooting.

The meeting is interrupted to announce that you are to answer a phone call on an emergency matter. The suspicious lawmen in the audience mutter a little about "publicity men" and the like, and they are being somewhat cynical.

You find that the call is real, and that you are summoned from the San Francisco restaurant to your own Daly City bailiwick. A shooting of a woman has been discovered, and the circumstances are such that it could be a murder or something akin thereto.

Your partner drives and you arrive at the scene in something approaching record time. The investigation has started and the two of you join in. Coordination is the keyword, and before long Detectives and Patrolmen are sketching, photographing and questioning on the scene. Others are running down leads in other parts of the city.

Ultimately, after several of you work day and night on the thing, most of the answers are before you—and you are satisfied that it is a suicide. It is a suicide with a Sunday Supplement slant, complete with diary, letters, the other woman, and the like.

Your main satisfaction in this case is that you are able, through hard investigation and polygraph assistance, to prove a man innocent.

You are very sorry for the victim and you are tired. In your fatigue, your thoughts turn to other suicides that you and the other officers have handled.

REVERIE . . .

You think, for example, of the man who told his child to call his wife and tell her to "come downstairs and see me blow my brains out." The wife missed the performance, but was on her knees trying to cover the big hole made by the .45 automatic with a bandage when the officers arrived in the basement.

REDECORATING . . .

Another officer and you are not likely to forget the day you forced a front door to investigate a possible suicide, and you found the smell of death in the air. In an upstairs bedroom, several days prior, the householder had sat up in bed, placed the muzzle of a .30 caliber rifle to his chin, and pulled the trigger.

You found him there, on the bed—and on the ceiling, and walls, and floor.

STREET SCENE . . .

And then there was the sunny early morning as you were looking forward to the end of a routine midnight watch. A man, incurably ill, ran into the street with a shotgun, and placed the muzzle in his mouth. The blast blew away the side of his head and face.

Death was not instantaneous, though, and the stocky, muscular working man lived long enough for two of you to have to wrestle him onto a stretcher and get him to the hospital. It was a courtesy trip only, as the man could not possibly live. The detail was a messy one on that day.

ERSATZ MURDER . . .

Then there was the young man, some years ago, who contrived to tie his hands and kill himself, thereby faking a murder. It sometimes takes more time to unravel a phony case than it does to solve a real one.

CAREFUL SUICIDE . . .

A parallel to that one was the elderly man who recently was found both hanged and shot—and who had done both things to himself.

THE LAW . . .

While it is against the law to starve to death today, it is not against the law to kill oneself . . . it is only against the law to help someone else do so.

It is against moral law, if you recognize such things; but suicide happens, bloodily and frequently, and you think that somewhere it must be woven into the scheme of things—unfortunately, inevitably, and sometimes sickeningly.

And as you work on the second suicide shooting of one day, Officer Van Otten muses: "You know, they say that these things happen in threes."

Affairs Of State

By Henry C. MacArthur

Virtual wrecking of private insurance participation in the state disability program was all just a great big mistake, according to State Senator Thomas M. Rees (D-Los Angeles), whose bills in the assembly during the 1961 legislative session turned most of the private business over to the state in an unprecedented socialistic program.

Now, says Senator Rees, elected last year to the upper house, he wants to rectify the mistake, and put the private insurers back in the business of supplying disability insurance.

To accomplish this, the senator has introduced legislation which he says would put private insurers on an equal footing with the state in handling the disability program.

But Rees doesn't blame the mistake on himself. He says it was the department of employment's interpretation of his 1961 legislation which caused the withdrawal of private companies from the disability field. He noted that before his legislation took effect through the department's new rules, 734,768 workers were insured under private plans. On Jan. 1, 1963, he said, this was reduced to 50,505.

"On several occasions," said Rees, "I requested the department of employment to liberalize its regulations so that it would not force private insurance companies out of the field. My requests were ignored.

"I believe that competition is healthy. The present regulations are harmful to all parties concerned, and, to date have caused confusion and cut down benefits in the existing health and welfare programs."

The state disability fund has been in trouble during the past few years because of heavy claims, under-financing, and adverse selection, Senator Rees said.

Irving Perluss, former director and now a superior judge, maintained when he adopted the regulations that the fund could not survive unless private insurers gave up adverse selection, and took more of the poorer risks.

The new legislation submitted by Senator Rees allows some tolerance in terms of the selection of cases by pirvate companies, which, he said, was necessary because private companies must pay a 8.342 gross premium tax, compensate the state for its supervision of private plans, and incur selling and field expenses, which the state does not have to do. In addition, the benefits from private plans must be greater than those offered under the state plan.

The original legislation passed in 1961 allowed the department of employment some leeway in adopting the adverse selection regulations, which resulted in driving private business from the disability field. However, as Rees claims, this leeway was not taken into consideration when the department put its new regulations into effect.

Letters To The Editor

Dr. Drees Gets Thanks

Dear Editor:

The following is an open letter to Dr. Drees and his staff at Junipeo Serrra Hospital.

Dear Dr. Drees:

We would like to thank you for all of the emergency service that you and your staff rendered to our family, and for that matter everyone else over the years. We wish you well in your continued practice.

We think that our family of four children is very typical of your sometimes patients. Even with our own family doctor and reams of health insurance, we still managed to find our hysterical way into your hospital much more than once. We realize that it was never your intention to become the only emergency service for this fast growing city. How much easier it would have been for you to limit your practice, shorter hours for you, and a lot lower insurance premiums to pay. So we are very grateful to you for seeing our needs and keeping your doors open to all.

All of us thank you for the lives you have saved, for the mile of stitches you put in little heads, for the gallons of penicillin you pumped into their bodies, for all the fixed mashed fingers and toes, for the river of hemorrhages that you arrested, for all of the children alive today because of your speed and skill with the stomach pump, for the endless stream of auto accident victims dumped on your doorstep. And we thank you for your enduring of the unpaid bills, and all of the complainers who took up your time with ailments not important enough for their family doctors, and those who always expected of you all of the service, talent and full facilities of the Mayo Clinic. More personally we are grateful for the relief that you gave to our little girl when she was crying with an ear ache in the middle of the night.

But most of all we thank you for the security that we all felt just in knowing you were there.

Sincerely,
Mr. and Mrs. Edward Plant

P.S. We wish our city had shown its gratitude by relocating your little hospital free of charge. Any one of our many recreation halls would have served with some remodeling. We cannot help but wonder if any will die these next two years because help will be too far away. It is most difficult to understand "progress" when it removes the only emergency hospital serving thousands to make way for a freeway. Experience should teach us that the first accessory for any freeway had better be a hospital.

Mr. and Mrs. Edward Plant
365 Lakeshire drive,
Daly City.

Mrs. Bertken Is Garden Village Life Member

Described as a parntent who has quite literally attended Garden Village School alone with her daughter was Mrs. Jack Bertken, recipient of the 1963 Honorary Life Membership awarded by Garden Village PTA.

Through the years of her daughter's schooling, Mrs. Bertken has served the unit in many capacities, starting as a room mother and holding many other positions on the executive board, including that of president for a two-year term of office.

Mrs. John Pickens, who presented the award, pointed out that the welfare of children is always foremost with Mrs. Bertken and that she does not hesitate to attempt to rectify a situation which she sincerely believes to be wrong.

Active as a Brownie leader before she had children of her own, she also served as charter vice president of Benjamin Franklin PTA without having a child in the school, always giving willingly of herself in church and community activities whenever she could be of service.

Besides Mrs. Pickens, other members of the Honorary Life Membership committee were Mrs. Brugge, Mrs. Peterson, Mrs. Salet and Mrs. Tonnisen.

The program, under the direction of Mrs. John Zapian, vice president, featured "Voices from the Past," portrayed by Mrs. George Salet, Mrs. James Katapodis, Mrs. Richard Peterson, Mrs. Jack Bertken and Mrs. Edward Raymond, in a candlelight ceremony.

Hostesses for the evening were first grade room mothers, and Den 2 of Cub Pack 259 served as color guard.

Classroom TV To Be Discussed

"Classroom CCTV" will be the theme of the Oceana PTA meeting on March 14 at 8 p.m. in the multi-purpose room.

Mrs. Carl McCarthy, president, will preside over a brief business meeting at which nominations and the election of the new slate of officers will take place.

Special invitations have gone out to the Jefferson Union High School district board members and to the 17th District PTA members to be present for our "very special" program concerning closed-circuit television.

Layton Jones, Oceana mathematics and science department head, has arranged for Dick Valo, representative of the Daga Corporation, to present the evening's program.

Friday, March 15, a TV open house will be held at Oceana to which Ernest Ribera sends out a warm invitation to all the public.

Spaghetti Dinner At Vista Grande

Thursday, March 14, is the date set for the annual Spaghetti Dinner at Vista Grande School in the multi-purpose room. Dinner will be served between 6 and 7:30 p.m.

Cub Scout Pack 350 will participate with their own booth.

There will also be gifts and prizes at the booths and games sponsored by the Vista Grande-Thornton PTA.

Everyone is cordially invited to enjoy a jolly family night of good food and fun. Dinner tickets are $1 for adults and children over 12 and 50 cents for children under 12.

Guadalupe PTA to Focus on Family

"Focus on Family, Featuring Father Goes Back to School," will be the theme of the next Guadalupe PTA night meeting on March 21 at 7:30 o'clock in the school auditorium.

After a brief business meeting, parents — fathers especially — are invited to visit their child's classroom and meet the teacher, to learn the aims of that grade level.

San Miguel PTA Luncheon March 21

The San Miguel PTA pot luck luncheon on Thursday, March 21 at 12 noon in the school auditorium, San Jose and Seneca avenues.

Theme: Strengthening our PTA. Topic: Installation of officers-elect. Committees featured: Library and citizenship.

Mrs. Raymond Bradek, PTA president, will preside.

Dads' Night at Olympia PTA

Dad's Night will be held by the Olympia PTA on Thursday, March 14, Olympia School, 8 p.m.

The subject will be "Dad Helps Build Sound Personalities." The panel for the group discussion will be Mrs. Louine Bostwick, Principal; Mrs. Ray Graber, Guidance Consultant for the Jefferson Elementary School District; Mrs. Shirley Cutright, the school nurse, and Dr. Phillip Hicks, Resident in Obstetrics and Gynecology at the University of California Medical Center.

Dr. Hicks is the father of two Olympia School children, Jim and Ted, and one preschooler, Kirsten. The faculty is always 100 per cent in attendance at the PTA meetings.

Mrs. Glenn Forcum is Program Chairman.

Museum Curator at Thos. Edison School

Mr. Kirk Conragen, Natural Science Curator, at San Francisco Jr. Museum came to Thomas Edison School to show some animals to the fourth grade children. Mrs. Burchard's class invited him to the school to tell about and show the animals. Mr. Conragen answered the questions of the children.

He brought a Golden Mantled Ground Squirrel, Marsupial — Virginia Opossum, Julius Squeezer, Boa Constrictor, poisonous and eight feet long, and "Pierre" the skunk and others. The children enjoyed seeing the various animals and thanked Mr. Conragen for an interesting presentation.

VAL'S REDWOOD ROOM HONORS ST. PAT'S DAY WITH A FREE FEED!

At 12 noon, Sunday, March 17, Val Connolly will throw wood Room and celebrate St. wood Room and ceelbrate St. Patrick's Day with a giant free feed of corned beef and cabbage. All the local gentry are cordially invited to the donneybrook, where Val personally insures a good time for all those who attend.

Val Connolly, who for seven years was restaurant entrepreneur of Val's Redwood Room on Junipero Serra boulevard in Daly City, battled his way literally speaking into the restaurant business.

As a 16-year-old boy in San Francisco, Connolly's money-making career started in the ring as a welterweight prize fighter. At the old National Hall at 16th and Mission, affectionately known to some as the "Old Bucket of Blood," Val fought for five years as a pro, and during this time never lost a fight.

Giving up the ring for better things, Val started his restaurant career in 1937 by working the bar at Peak's Bar and Restaurant at 24th and Castro streets. Five years later, Val and his wife, Lena, branched out on their own by buying a dining car at 15th and Mission.

In 1955, the Connolloys purchased Rudie's Restaurant, which is now Val's. During the past seven years, Val's Redwood Room has been completely remodeled inside and out, and the bar doubled in size as has the staff. Now 22 people are on the payroll, not counting Val Junior, who is learning the business from the bar as did his father.

Also on the staff is Chef Stan Hemler from Germany, who with years of experience in the field of cookery can create gastronomical wonders even for the most jaded of palates.

So for lunch, dinner or a cocktail, try Val's, a word synonymous with good eating.

Gardening

Here's A Favorite Foursome For Shade

While any tree, be it deciduous or evergreen, can be classed as a shade tree, the deciduous varieties have one advantage worth noting. In summer when we want their shade, there it is. In winter, when we can get along without shade, the deciduous tree obliges us by dropping its leaves and letting the sun flow through.

This is not to detract from the wonderful evergreens such as our evergreen oaks and the stately magnolia, which are widely planted for shade. Where they don't block wanted light and sun in the winter, there are no trees more beautiful than these.

Most of you need no reminder that the best time to plant deciduous trees is now during their leafless, bareroot season. When it comes to choosing the right tree from the many available, however, most gardeners confess a lack of knowledge. We suggest that you rely on the advice of a local California Association of Nurserymen member, but if you want a starter here's a favorite foursome for California.

First on our list is the Gingko, or Maidenhair Tree, which in grace and beauty has few rivals in the tree world. An awkward tree in its youth, the Gingko's irregular growth habits become an asset as the tree grows up, its branches spreading artistically from the grayish trunk. The common name derives from a resemblance between the Gingko's leaves and those of the Maidenhair Fern. A gingko leaf is much the larger in this comparison, obviously.

If the Gingko is a beautiful tree in summer, it becomes even more so in the fall, as the leaves will turn to vivid shades of yellow even in the coastal areas where good fall foliage is not too common. This alone makes the tree worth planting. You can grow it in reasonably small gardens, too, beside a patio for better outdoor living in summer, alongside a drive and nearer to the house than many trees permit. The Gingko's roots are seldom a trouble for foundations and walks.

Meat consumption in Australia in 1961 averaged 197 pounds per person, the second highest in the world.

Young birds and the females of the species are much more migratory than adult males.

Gardener's Checklist

1—Feed lawns this month to give them a good start as weather warms up.

2—Snails and slugs are active this time of year. Scatter snail bait in strategic hiding places, such as ivy and flower borders.

3—Divide established clumps of perennial phlox and Shasta daisy. Plant new perennials from the nursery.

4—Try to complete bareroot planting of roses and fruit trees by the end of February.

5 — Renunculus bulbs can still be planted. Or, if you set them out last fall, make a second planting now for later bloom. They are also available started in flats.

For An Early Spring, Try These

The first blooms of spring are always the most exciting. you go out one crisp, sunny day and there are the first buds opening on a flowering quince, the first fragrant blooms of osmanthus and India Hawthorn. The gardener's pulse is always quickened by these encounters with a new season.

In California, of course, these first signs of spring come early—often before winter is at its mid-point. In some sheltered gardens along the coast and in much of southern California, the first blooms of spring come in January or February, and they follow soon after in valley areas. Too early, you say? Not according to the countless happy gardeners who enjoy this premature spring. This is why many of them came to California in the first place.

The California Association of Nurserymen gives a nod to the flowering quince as being among the best bets for an early, early spring. And one of the nicer points in their favor is that quinces continue blooming through several weeks.

You see the first color from flowering quince shortly after the new year is ushered in. They do not swing into full bloom until February, however. For indoor decoration, they can be picked in the bud stage and brought into the warmth of the home where they will then open their buds and bloom.

A lovely selection awaits the gardener who shops for flowering quince in C.A.N. nurseries. Clarke's Giant, a large-flowered double red variety, is a favorite of long standing. Other reds include Texas Scarlet and Stanford Red. Snow, as the name implies, is a pure white quince of great delicacy in bloom, while the varieties Minerva, Charming and Pink Lady come in varying shades of pink or rose. You'll find others too, for over the years, a long line of excellent seedlings has been developed.

PUBLISHER James Harrah of the Times and Record was among a group of press representatives who enjoyed a 50 minute flight over northern California last Friday in the new Convair 990 Astrojet. The trip took them to Lake Tahoe, Yosemite and back to San Francisco. American Airlines put the new ultra modern jet airliner into service between San Francisco and Chicago Sunday with four flights a day.

Pacifica Fuchsia Society to Meet
